The Sphynx.
An Egyptian Marvel, a human head chiseled from stone, changed to actual living matter, and made to speak, sing, drink, smoke, and deliver its oracles, as to the time of its first weird and mystical conception, nearly four thousand years ago—quicker than the lightning's flash crumbles to dust, leaving the densely crowded auditory spell-bound, transfixed, wonder-stricken, at the marvelous sight which has so thrilled and startled the millions who have been fortunate enough to witness this, the greatest sensation which has ever appeared since the creation of the world. Full particulars in to-morrow's paper.

His assortment of Furnishing Goods, comprising Shirts, Drawers, Collars Neck Ties, Handkerchiefs, &c., cannot be surpassed east or west. A large stock of ready made Pants, Coats, Vests and Overcoats, will also be found in his establishment. Persons in want of any thing in the clothing line should not fail to give Mr. Weier a call.

The Sphynx—A Mystery.

A Broken Down System.
There is a disease to which the doctors give many names, but which few of them understand. It is simply weakness—a breaking down of the vital forces. Whatever its causes (and they are innumerable), its symptoms are in the main the same. Among the most prominent are extreme lassitude, loss of appetite, loss of flesh, and great mental depression. Indigestion and a *Stomach Cough* are also frequently concomitants of this distressing state of body and mind. The common remark in relation to persons in such a condition is, that they are consumptive. Now, what these unfortunates really want, is *vigor—vital strength*, and as certainly as dawn succeeds darkness they can recuperate their systems and regain perfect health by resorting to Hostetter's Celebrated Stomach Bitters. It is as clear that a life-reviving Tonic is required in such cases, as that the dying flame of an empty lamp requires to be revived with a new supply of oil. Perfectly pure and innoxious, containing nothing but the most genial vegetable extracts, and combining the three grand elements of a stomachic, an alterative, and a genial invigorant. Hostetter's Bitters are suitable to all constitutions, and are as applicable to the diseases and disabilities of the feebler sex as to those of men.

Hostetter's Bitters
Are sold wholesale and retail at very low rates at Fleming's Drug and Patent Medicine Depot, No. 84 Market street, corner of the Diamond and Fourth street.

LOYALTY OF LOUISIANA.

No Overt Act of the Fenians to be Permitted.

YOUNG KETCHUM TO BE PARDONED.

Lord's Banking House Robbery

THE WHISKY DISTILLERIES SEIZURE.

Earl Russell's Resignation a Canard

NEW YORK, March 12.—The *Commercial's* special says the President told a Congressman on Saturday, that he regarded Louisiana as more loyal now, than she has been since her purchase, and South Carolina more loyal than she had been for thirty years.

General Grant has issued an order, urging economy in army officers.

Secretary Seward has assured the English Ministers that the Fenians will not be permitted to commit any overt act, and the government will issue a proclamation in case of any violation of the law.

The *Post's* special says the Ways and Means Committee will soon report the new tax bill in favor of five cents per pound on cotton, and five per cent of all incomes, extending the exception clause in the latter to $1,000.

The Civil Rights bill will again be reported to the House to-morrow, without any material amendment.

It is believed that Governor Fenton will pardon young Ketchum; on what grounds it is not stated.

The report that another robbery of bonds and securities had been committed, has probably grown out of the fact that a box containing $300,000 in securities, belonging to a well-known banker of this city, deposited in the safe of Mr. Lord, was taken therefrom at the time the robbery of $1,500,000 was effected; the $400,000 was in bonds which, for the most part, cannot be negotiated.

The seizure of whisky distilleries continues to excite comment in business circles. Mr. Whitman, under whose special authority they were seized, has returned to Washington, leaving the factories in charge of officers. As soon as the seizures are all effected, an examination of the books of the establishments seized will be made, and the proprietors of the places will be summoned to appear and submit to a rigid examination in regard to their respective business. Some of the firms whose establishments have been pounced upon, say that they are ready to meet any charges that may be preferred against them, as they are confident that they can satisfy the officers of the law, that no fraud, on their part, has been attempted or intended. They claim that they have always made their returns with legal regularity, and have kept their books open at all times for the inspection of officers. The seizure of distilleries will not be confined to this city; evidence has been procured of extensive frauds practiced by whisky manufacturers, whose establishments are on the other side of East and North rivers.

The new health commission is fairly in operation, and is entering complaints of all impurities and nuisances. A Committee of butchers and hide dealers had an interview with them this morning, in reference to the removal of slaughter-houses, bone boiling nuisances, etc. out of the city.

European files give additional particulars. The London *Globe*, of February 28th, says: We have authority to state that there is no foundation of any sort for the rumor that Earl Russell had begged permission from Her Majesty to resign, and recommended the Duke of Somerset as his successor. The whole story from beginning to end is a pure fiction.

A meeting was held in Liverpool this morning, Wednesday. There was upwards of eight thousand pounds subscribed in the room, for the purpose of affording aid to the Fenians now in penal servitude in Cork.

The *Reporter* of March 1st says: Emigration to the United States has already commenced on a large scale. It is not the poorer classes that are departing, but those who could live at home, if they could only be taught to be content with their lot.

Upwards of six hundred passengers are waiting in Queenstown, after the steamer had taken a full load.

A Paris correspondent writes: It appears that all attempts at bringing the Prince Napoleon back to his old position as President of the great Exhibition have failed, and that he absolutely refuses to be reconciled with the Emperor, until the latter makes some sort of public acknowledgment. The Prince maintains that as he is a Bonaparte and the other not, that he has, therefore, the right to judge whether the sentiments he uttered at Saccaio were Bonaparte's or not, and on those sentiments he is willing to stand or fall. The Imperial Commission of France will, therefore, be presided over by the Minister of Agriculture, Commerce and Public Works, M. Behil, a most competent and popular business man.

The following is the amendment to the address to the Emperor, urged by opposition in the French corps legislatiff, upon which the great speech of Mr. Thiers was delivered. He condemned the Mexican expedition at its beginning in calling attention to the embarrassments and sacrifices which it would impose upon France. Last year at the return of our soldiers was solemly promised, we regret that it has undergone a rotundation which the interests of France do not justify. Our country has not forgotten the original declaration made by the Governmet regarding the causes of the expedition, and it is astonished to see our army now so devoted to the defence of a foreign throne.

At a meeting in Madrid lately, several officers of military reputation volunteered to serve on the Pacific, in any event of their services being needed.

Celebration of St. Patrick's Day—The Richmond Specie—Gen. Custar's Testimony.

NEW YORK, March 12.—Extensive preparations are being made by the Irish citizens of the metropolis for the celebration of St. Patrick's Day. Col. O'Mahony has issued an order for the parade on that occasion of the 99th Regiment of the National Guards. The Knights of St. Patrick will celebrate the day by a banquet at the Maison Doree, in Union Square. Another meeting of the Irish societies of Brooklyn was held yesterday, at which all the arrangements for the anniversary procession in that city were completed.

The *Herald's* Washington special says: The reported return to the Richmond banks of the one hundred thousand dollars in gold, claimed as theirs, but seized and brought here by the agents of the Freedmen's Bureau as abandoned property, was premature. The coin is still in the Treasury vaults, and its return to the banks is an undecided question.

Gen. Custar was before the Reconstruction Committee on Saturday, and testified that the feeling in Texas among the people was generally disloyal, although he anticipated no outbreak.

Civil Rights Bill—National Insurance Bureau.

NEW YORK, March 10.—The *Tribune's* Washington special says: The Judiciary Committee of the House will, during the present week, report again to that body the Civil Rights bill, with an initial clause providing that nothing contained in the bill shall be understood to affect the question of suffrage.

An effort is being made to organize through a Congressional enactment, a National Insurance Bureau, supported by many of the foremost and best insurance men and companies in the country, and it is believed that something may be arranged through the Internal Revenue or Treasury Department, somewhat after the manner of the National Bank system, whereby insurance companies may have their securities in government stocks, and deposited here in such a manner that the present vexatious State laws for guarding the institutions may be repealed.

Gen. Spinner states that there are to his knowledge only about twenty-three million dollars lying in the National Banks belonging to the Government, instead of seventy millions, as believed by the Comptroller's Clerks.

FENIAN SCARE IN CANADA.

Excess of Volunteers.

OFFICIAL MILITARY ORDER.

Magazines and Arsenals Under Guard.

THE VOLUNTEER FORCE UNDER MARTIAL LAW.

TORONTO, C. W., March 12.—The number of volunteers answering the government call is largely in excess of the demand.

An official military order is published. The Commander-in-chief regrets that he is compelled, as a measure of precaution, to call for the service of so large a number of volunteers. This step does not result from the existence of a condition of war between our sovereign and a foreign state, but is a necessary performance of a duty which has devolved upon the government to make provision for protecting the lives and property of the inhabitants of the Province against the threatened practical attack by lawless men, who use the territory of a neighboring power, for the purpose of openly organizing an enterprise against the sovereign rights of the Queen, and the security of her subjects. The Commander-in-Chief relies with confidence upon the loyal spirit of the Canadians to meet this extraordinary state of facts, and feels assured that if necessary, the entire population of the Province will come forward to resist any invasion of the country. The Commander-in-Chief knows that it is unnecessary to address observations to the officers and men called out, on the importance of strict attention to their military duties, and is convinced that should the threats of an attack be carried into effect, the Canadian volunteers of the present day, will meet with as much success in repelling such a criminal and wanton outrage against humanity and civilization, as was given their ancestors when they were called upon to roll back from their Territories the tide of legitimate war or repulse the attacks of lawless invaders.

NEW YORK, March 12.—The *Herald's* Toronto special says: The Fenian excitement has somewhat subsided here, but still rages on the frontier. The Government has not relaxed its preparations to receive the invaders everywhere. The city is still full of volunteers who are compelled to wear uniforms and side arms at all times, under penalty of arrest. A large number of regular troops are stated to be on the way from Quebec. All the forts are being equipped. The troops daily parade and drill, and the city looks like a place besieged. Forces are being moved towards the frontier as fast as they arrive and are organized and equipped. The magazines and arsenals are guarded night and day by picked men. Large numbers of men, believing that there was no danger of an invasion by the Fenians, refused to turn out, and were handcuffed and marched off to the barracks. Some few who became alarmed, fled to the interior, while another small detachment left for the States. General orders were issued from the Governor General's office, placing the whole volunteer force under martial law, and making Lieut. Gen. Mitchell commander.

The Governor General relies with confidence on the loyal spirit of the Canadians, and that if necessary the entire population of the Province would come forward to resist invasion. There is ten companies at Windsor, six at Sarnia, ten at Prescott, one regiment and one company of artillery at Stansteads, and about six hundred men and artillery at Brockville. The balance of the troops are held in reserve at Toronto, Hamilton, London, Kingston Montreal, and Quebec. A large force is collected for the defense of Ottawa. Volunteers are pouring into all the interior towns. There is much enthusiasm manifested and recruiting is going on rapidly. Men are coming in from the country and volunteering. The troops were paraded and marched to Church yesterday. In Catholic Churches, Bishop Lynch's letter was read and some Priests called on Catholics, for the sake of the peace of the city, not to walk out on St. Patrick's day.

Parliament will meet on the second week in April.

XXXIXth CONGRESS---FIRST SESSION

WASHINGTON, March 12, 1866.

SENATE.

Mr. Grimes, of Iowa, offered the memorial of the Iowa Legislature, asking for the speedy trial of Jefferson Davis, which was referred to the Judiciary Committee.

Mr. Wilson, of Massachusetts, from the Military Committee, reported the bill to fix the rate of mileage for officers traveling on public duty.

At half past twelve o'clock the bill to extend the time for withdrawing goods from public stores and bonded warehouses was taken up. Mr. Sprague took the floor in opposition to the measure.

Mr. Sherman presented the petition of a citizen of Columbia, asking for indemnity for loss sustained by the burning of his house. In presenting the petition Mr. Sherman read a letter from General Sherman in relation to the burning of the Columbia, alleging that the current reports of this matter were false; that Columbia was not fired by the Federal, but by the rebel authorities.

Mr. Wilson presented the following joint resolution, which he intends, he said, to offer when the Constitutional amendment comes up again: Representatives shall be apportioned among the several States according to the number of male citizens over twenty-one years of age, having the qualifications required for the election to the most numerous branches of the Legislature, excluding citizens possessing like qualifications disfranchised for participation in any rebellion and petitioners of like age who are naturalized. The number of Representatives shall not exceed one for every one hundred thousand of actual population, but each State shall have at least one Representative.

Mr. Grimes said he believed that his time had come to offer a Constitutional amendment, and he therefore offered the following: Representatives shall be apportioned among the several States which may be included within this Union, according to their respective numbers, counting the whole number of persons in each State, including Indians not taxed; but whenever, in any State, the elective franchise shall be denied to any portion of its male citizens above the age of twenty-one years, except for crime or disloyalty, the basis of representation in such State shall be reduced in the proportion of the number of male citizens so excluded, to the whole number of male citizens over twenty-one years of age. Mr. Grimes said he did not know whether he was in favor of the above or not. It came nearer to what he thought ought to be adopted, after the Senate had rejected the proposition before them last Friday, than anything he had seen presented.

At the conclusion of his remarks the bill was before the Senate. The vote by which the bill was previously passed, was reconsidered, and the bill was open for amendment.

Mr. Conness moved to amend it by striking out the word April where it occurs, and inserting the word May. This was adopted. Several other amendments were proposed by Mr. Sprague and rejected by the Senate, after which the bill was passed. It now goes to the House for concurrence in the amendment of Mr. Conness which was adopted, namely to strike out April wherever it occurs and insert April.

Mr. Sumner—I ask leave to send to the Chair an amendment, which I hope, in proper time, to offer as a substitute for the supplement amendment to the Constitution which has been under discussion so long in this chamber. I send it to the Chair and would ask to have it read, in order that it shall be printed. The amendment was read as follows:

Article—Representatives shall be apportioned among the several States, which may be included within this Union, according to their respective numbers, which shall be determined by taking the whole number of persons, and including Indians not taxed, provided that whenever male citizens of the United States over the age of twenty-one years shall be excluded from the election franchise in any State except for participation in the rebellion, the basis of representation therein shall be reduced in the proportion which the number thus excluded bears to the whole number of male citizens of the United States over the age of twenty-one years in such State.

HOUSE.

The first business was the call of the States for resolutions.

Mr. Ashley offered a resolution instructing the Joint Committee on the Library to enquire into the expediency of purchasing the portrait of Hon. Joshua R. Giddings, now on exhibition in the Congressional Library.

Mr. Eldridge, of Wisconsin, called for the yeas and nays, and being ordered, the vote resulted—yeas, 78, nays, 53; so the resolution was adopted.

Mr. Julian, of Indiana, by unanimous consent, introduced a bill to fix eight hours as a day's work in all cases where laborers, mechanics and artizans shall be employed by, or under the authority of the Government of the United States, which was read twice and referred to the Judiciary Committee.

Mr. Spaulding, of Ohio, introduced a joint resolution in reference to the taxation of United States notes and certificates of indebtedness by the several States. The joint resolution proposes to enact that the act of June 30, 1864, shall not be so construed as to exempt from taxation, under municipal authority, United States bonds or certificates of indebtedness not bearing interest.

The joint resolution was read twice.

Mr. Spaulding moved to refer it to the Committee on Ways and Means, with leave to report at any time, and also moved the previous question, which was seconded.

Mr. Wentworth, of Illinois, objected to the latter part of the motion giving leave to report at any time. He wanted no preparation.

The Speaker—It is too late to object. The House has ordered the main question.

Mr. Stevens—I hope the gentleman will make it a resolution of inquiry.

The Speaker—There are no instructions in the joint resolution. It is simply to be referred to the Committee on Ways and Means.

Mr. Wentworth—I would object to refer anything now, since the guarantee of Mexican bonds was referred.

Mr. Conkling—Will it be in order for me to ask the mover of the resolution to modify it, so as to make it applicable to such as shall be issued hereafter?

The Speaker—It shall be only be done by unanimous consent.

Mr. Spaulding—I shall not do that. I want to tax the greenbacks in the States. It is as much as we can do to carry the interest bearing bonds with taxation.

Mr. Morrill—Will not the gentleman get up a resolution of inquiry?

Mr. Spalding—It goes no farther, than that it will be submitted to the Committee on Ways and Means.

Mr. Worth moved to reconsider the vote on ordering the main question.

Mr. Stevens—I move to lay the resolution on the table; it is rank repudiation.

The vote ordering the main question was reconsidered.

Mr. Stevens withdrew his motion.

Mr. Rogers renewed it and called for the yeas and nays.

The yeas and nays being ordered, the vote resulted in yeas 42, nays 90; so the resolution was not laid upon the table.

Mr. Spaulding then amended his resolution by striking out the words "certificates of indebtedness."

Several members objected to this, but the Speaker voted in favor of it.

On the suggestion of Mr. Hooper, of Massachusetts, the resolution was further modified so as to read that the act of the 30th of June, 1864, shall not be so construed as to exempt from taxation by or under State or municipal authority, any amount of United States Notes not bearing interest, held by any person as money.

The previous question was then again seconded.

The main question was then ordered, and the joint resolution was referred to the Committee on Ways and Means.

Mr. Sheilabarger offered a resolution, which was agreed to, directing the Judiciary Committee to inquire and report to the House on the constitutionality and propriety of providing by law that no person who is disloyal to the government of the United States, and who has voluntarily engaged in rebellion against such government, shall be entitled to the exercise of an elector in any State, or hold office under such government during such disloyalty, and providing also by law for persons who have so engaged in such rebellion being admitted to exercise such elective franchise of proof of loyalty to the government.

Mr. Schenck offered a resolution to print twenty thousand copies of the reports of the evidence taken by the Reconstruction Committee;

Mr. Leblond rose to debate, and the hour having expired, the resolution was laid over till next Monday.

Mr. Blaine, of Maine, asked leave to introduce the following:

Resolved, That in giving leave on the 5th inst, for the introduction of a resolution to guarantee a loan for the Mexican Republic, this house does not thereby in any way approve such a measure, and it is hereby declared to the sense of the House, that all resolutions leading to a guarantee of the Mexican Republic loan, are unwise and inexpedient.

Mr. Smith objected.

Mr. Blaine wished to move to suspend the rules, but Mr. Morrell having the floor, declined to yield for the motion.

Mr. Webb, of Wisconsin, presented a joint resolution of the Legislature of Wisconsin, expressing approbation of the legislation of Congress in passing the Freedmen's Bureau bill, and excluding representation from the rebel districts.

Mr. Stevens, of Pennsylvania, offered a resolution, which was adopted, providing for a recess of the House daily, except Saturdays, from 4:30 p. m., to 7:30 p. m.

A bill to amend an act in regard to inventors, patentees, &c., was read twice, and then referred to the Committee on Patents.

Mr. Paine introduced a bill to authorize the Milwaukee and Prairie Du Chien Railroad Company to construct a bridge across the Missouri river and establish a postal route, which was read twice, and referred to the Post Office Committee.

Mr. Bidwell introduced a bill reserving the right of way for certain purposes over the public lands of the United States, which was read twice and referred to the Committee on Public Lands. Also introduced a bill to confirm the selection and location of lands granted to the State of California by the United States, which was read twice and referred to the same Committee.

Mr. Morrell, from the Committee of Ways and Means, reported back adversely a joint resolution to increase temporarily the duties on imports. Laid on the table.

The House went into a Committee of the Whole, Mr. Ingersoll in the chair, and resumed the consideration of the bill regulating trade with the British American Possessions.

Mr. Wilson said this was the first place where any western interest was favored by the bill. Last year the value of live animals imported from Canada was seven million dollars. He would allow reasonable duties for the protection of the industry of the country, but he should also insist that the agricultural interests shall be protected likewise.

Mr. Brooks hoped the amendment would not prevail, and asked if beef was not high enough now to satisfy everybody.

Mr. Wilson was perfectly willing to compromise on this subject if we could have the duties reduced on goods manufactured in the east and consumed at the west. They might be content with lower duties on agricultural products.

Mr. Brooks replied that this was a proposition to raise the price of beef to the consumer.

Mr. Ross argued that live animals could be raised cheaper in Canada than here, and when the cost of transportation from the West to Buffalo, the point of competition, was taken into consideration, it would be seen; but even with the proposed duty, the Western producer would have no advantage over the Canadians.

Mr. Lynch reminded the members that the duty on articles of New England production was reduced in his bill, while it proposed to raise the duty on articles of Western production. In the general tariff, live animals were on the free list.

Mr. Wilson, of Iowa, thought there was good reasons for that, because live animals were embraced within the terms of the Reciprocity Treaty, and none were imported from abroad, except for the purpose of improving stock. They would insist upon having at least a small measure of the protection for the West.

Mr. Cook suggested that the argument so often used here as to the protection stimulating industry and cheapening home productions, applied as well to agricultural products as it did to coal or iron or manufactured goods. There should be sufficient protection given to the agricultural interests of the west so as to enable her to compete successfully with the agricultural products of Canada.

Mr. Kelley said he thought his constituents were as fond of good beef and consumed as much of it as did the constituents of the gentlemen from New York.

Mr. Brooks—But, yet he was in favor of imposing the duty proposed, and that on the very broad general principle that what we want in this country is men capable to develop its resources.

Mr. Smith spoke in support of the amendment as the representative of a beef and mutton growing country, a horse country, and a country that raised everything going to support a government. He declared himself tired and sick of the doctrines of free trade, he did not believe in them, but did believe in protecting all the rights of the country.

A dry debate sprung up on the question of the taxation of Canadian lumber. Finally the debate closed, and the clause in regard to lumber, was, on motion of Mr. Blaine, amended so as to read "on lumber pine, split or side, ½ per cent. per cubic foot; when square, ½ per cent. per cubic foot; when sawed and not valued at over ten dollars per thousand feet, two dollars per thousand feet; when valued at over ten dollars per thousand feet, $3 per one thousand feet. The second section of the act applies to all foreign countries changing the duties on the importation from abroad, on the articles mentioned, but it, on motion of Mr. Warrell, the section was amended by adding the following on free stone, sand stone and granite when in the rough and uncut to dimensions, ½ per cent ad valorem; when wrought or cut to dimensions, 10 per cent.

Mr. Wilson moved to amend by making the duty 25 cents instead of 15 cents.

Mr. Price accepted the amendment increasing the duty on Carley 25 cents per bushel was agreed to.

Mr. Bergen moved to reduce the duty on beef from one cent to one-half cent per pound, without disposing of the amendments. The hour of 4:30 P. M. having arrived, the Committee arose, and the House took a recess till 7:30 P. M.

EVENING SESSION.

Mr. Allison, of Iowa, presented a joint resolution from the Iowa Legislature, in relation to lands granted to the State of Iowa, to aid in the construction of Railroads. Referred to the Committee on Public Lands.

Mr. Van Horn, of Missouri, introduced a bill to aid in the construction of the Kansas and Neosho Valley Railroad. Read twice and referred to the Committee on Pacific Railroad.

Mr. Stevens offered a resolution, which was adopted, directing the Secretary of War to inform the House what sum of money had been paid to the Illinois Central Railroad for the transportation of troops and property, and what amount is yet claimed by said Company.

The House then went into the Committee of the Whole, Mr. Ingersoll in the Chair, and resumed the consideration of the bill regulating trade.

Mr. Morrill, of Vermont, made an appeal to the Committee, that if it was desired to pass a bill of this kind, to pass it in such a shape as would make it a practical measure. The Committee on Ways and Means had endeavored to make a bill that would be fair and proper as a National measure. He utterly scouted and scorned the idea of legislating in behalf of special interests.

Mr. Conklin stated that this bill, as loaded down by amendments, outraged the principle of American policy, because there was no sort of need for seeking in excess so enormous revenues. The estimates for the year were $284,000,000, and government had already revenues vastly in excess of that. Revenues were to be reduced by a diminution of internal taxation, and of import duties as a question of protection. The bill, as now loaded by amendments, outraged the American policy by imposing enormous burdens on raw materials. It seemed hardly worth while for the Committee on Ways and Means to struggle against the manifest determination of the House.

Mr. Stevens then spoke against it, and renewed the motion to strike out the enacting clause. The question was taken by letters and there were, yeas 68, nays 37; so the enacting clause was stricken out.

The Committee rose and reported the action of the yeas and nays in the House on concurring in the action of the Committee, and resulted yeas 75, nays 52.

Mr. Schenck asked consent to introduce a resolution, instructing the Committee on Printing to inquire into the propriety of Printing 20,000 extra copies of the reports and testimony taken before the Select Committee on Reconstruction.

Mr. Laflin objected.

Mr. Schenck moved to suspend the rules; the rules were suspended, and the resolution was introduced and agreed to.

The House then went into Committee of the Whole and proceeded to the consideration of the bill for the construction, preservation and repairs of fortifications. The first item in the bill was Fort Wayne, near Detroit, fifty thousand dollars.

Mr. Washburne, of Illinois, suggested that each item in the bill be reduced fifty per cent.

Mr. Bidwell, of California, had no objection to the proposed economy if it was not made to apply to the Pacific coast.

Mr. Seaman, of Michigan, showed the importance of maintaining Fort Wayne in good condition, it being within half a mile of the Canadian border, and our relations with England not being very satisfactory.

Mr. Schenck called attention to the fact that the Committee seemed determined to go it blind. There was no more reason why the estimates should be cut down fifty per cent. than there was to cut them down sixty or eighty per cent.

The bill was based on an estimate of the War Department, and it was a doubtful policy to practice economy on our fortifications at this time, when we did not know what a year might bring forth in our relations with foreign countries, and particularly with our neighbors. It was not a very statesmanlike act of legislation to take up this appropriation bill and scale it down to ten, twenty, and fifty per cent.

The Committee then rose for the purpose of closing the general debate on the bill, and soon after rose and reported no quorum, and the House, at a quarter past ten o'clock, adjourned.

Amendment by the Supreme Court—Small-Pox in South Carolina—Order Issued by Gen. Grant.

WASHINGTON, March 12.—The Supreme Court of the United States has made the following amendment: Ordered, that the first paragraph of the 29th Rule of this Court be amended so as to read as follows: "In all cases brought here on appeal, writ of error or otherwise, the Court will receive printed arguments without regard to the number of the case on the docket, if the counsel on both sides shall choose so to submit the same within the first sixty days of the term, but twenty copies of the argument signed by attorneys or counsellors of this Court must be first filed."

The Secretary in Chief of the South Carolina District of the Freedmen's Bureau has written to the chief medical officer of the Freedmen's Bureau for a supply of vaccine virus, and says the small pox is spreading with considerable rapidity in some portions of that State.

Lieutenant General Grant has issued a general order requiring commanders of military departments, as rapidly as possible, to cause all rented buildings to be evacuated, and the troops and officers remaining in their commands to be collected in regular military posts as property of the United States.

The allowances of barracks, quarters and offices, are to be strictly limited to the schedule made in paragraph 1,068 of army regulations, and whenever Quarter Masters return hired buildings, they will report to the Chief Quartermaster of the Department, their orders and reasons therefor. Inspector Generals will give their special attention to this subject, and will call the immediate attention of all commanding officers to the absolute necessity for economy, and will embrace it in their official report to their respective Headquarters.

From Panama—Quiet in Central America—War between Spain and Ecuador.

NEW YORK, March 12.—The steamer New York, from Aspinwall, on the 4th, with one million four hundred and twenty-five thousand dollars in treasure, arrived at four o'clock.

The steamer Uncle Sam, which was refused clearance until bonds were given, was still further detained until the protests of her owners was withdrawn, and a promise exacted that the Panama authorities should in no way be held responsible for such detention.

The steamer Swanee has arrived in Panama on the 6th.

An arrival from Tumaco reports that the new gold mines there are extremely rich.

All is quiet in Central America.

Chili dates are to February 24th.

Only three vessels of the Spanish squadron were on blockade off Valparaiso, the remainder having left for parts unknown.

The foreign Consul at Valparaiso has protested against the Spanish commander's order prohibiting the export of coal from Chilian ports.

The loss of the Peruvian steamers Loa and Amassonas is confirmed.

A declaration of war against Spain and Ecuador has taken place, and an alliance entered into with Peru and Chili.

Fenian Matters.

NEW YORK, March 12.—The *World*, of this morning, says that companies and regiments of Fenians are being formed with great rapidity, and it is calculated that General Sweeney will be able when he feels justified in calling for their services, to procure 25,000 able bodied young men who have seen service, in this city alone. It is known that 16,000 cartridge boxes and knapsacks were bought at auction last week, from a well known House in Park Place, and quantities of arms and ammunition are being negotiated for from day to day by officers selected for that purpose. It is probable that Col. Tresham will command the first Fenian regiment from this city, and a well known southern cavalry officer, the 2d. An artillery regiment is also being raised and an independent battalion for special service, under the command of Col. Murphy, a veteran soldier.

The *Herald* says: Movements of significance were reported to be in process of preparation here yesterday, and funds continue to pour in to the Fenian treasury.

In Washington, it is said that the Fenians, in order to exhibit the perfidy of the British Government, will shortly make some astounding developments in regard to the direct assistance given by the agents of Earl Russell and the late rebellion in the South.

The Tariff.

WASHINGTON, March 12.—Representative Morrill, in reporting adversely, to-day, on a resolution proposing temporarily to increase the duty on imports fifty per cent., said that it was the intention of the Committee on Ways and Means, to take up the subject of the tariff at an early day, hence it was expedient to take action on the resolution in advance of this fact.

The bill allowing negroes to testify in all cases where they are concerned in person or property, when jurisdiction shall be restored to the Courts in the State, was passed.

The usury laws were repealed, so far as to allow eight per cent. interest to be paid when an agreement to that effect is between the parties.

Fenian Information.

NEW YORK, March 12.—The *World* publishes a special from Albany which says private and reliable information from Burlington, Vt., states that uniforms for 15,000, and 20,000 rifles of the very best pattern have been transported quietly during the last ten days from New York City and from Troy to Burlington, Vermont, where they now remain concealed awaiting the advance of the Fenians.

Arms in abundance are said to be stored up at Detroit, Sandusky, Buffalo, Ogdensburg, Plattsburg and Montpelier. Three companies of Fenian volunteers, commanded by efficient officers, have been organized in Buffalo, for service in Canada.

Maine Election—Railway Loan.

BELFAST, ME., March 12.—At the municipal election in this city to-day, Hon. N. Abott was re-elected mayor without opposition.

BIDDEFORD, ME., March 12.—Charles A. Show, Democrat, was re-elected mayor of this city to-day.

BANGOR, ME., March 12.—A. G. Wakefield, Republican, was elected mayor to-day without opposition.

The citizens of Banjor to-day, by a vote of 1,297 yeas, against 35 nays, decided a loan credit of the city for one million dollars to the European and North American Railway.

From New Orleans.

NEW ORLEANS, March 12.—John T. Monroe, the National Democratic candidate for Mayor, was elected over Moore, National Union candidate, by 316 majority. Three of the four Recorders elected are national Democrats and the fourth is a Unionist.

The steamer George Washington left for New York this evening.

Fenian Meeting.

BOSTON, March 12.—An immense meeting of the Roberts wing of the Fenian Brotherhood was held at Music Hall to-night. Thousands were disappointed in not gaining admittance. The meeting was addressed by President Roberts, Gen. Sweeny, and Fenian Senator Morrison of Kansas. The speeches were animated and the brotherhood were called upon to rise in their might, and with Gen. Sweeny strike on Canada. At the close of the meeting upwards of $10,000 in cash contributions were collected.

Examination of Green, the Murderer.

HARTFORD, CT., March 12.—The examination of B. W. Green, charged with the murder of his wife, was concluded in the Police Court to-day. The defense of insanity was sustained, and the Court decided that there was no probable cause for binding the prisoner over, and he was discharged. His family, it is understood, will confine him in the Providence Insane Asylum.

The Veto of the Philadelphia and Erie Railroad Bill.

PHILADELPHIA, March 12.—The veto of the Philadelphia and Erie Railroad bill will be sent to the House of Representatives to-night, it takes the ground that the privilege accorded to the railroad is an infringement of private rights, and its operation would be conductive to the fostering of monopolies instead of the promotion of a general prosperity.

United States Supreme Court Decision.

WASHINGTON, March 12.—The United States Supreme Court to-day, in the case of the Bank for Savings in the city of New York, against Manasel B. Field, decided that that institution is liable to pay the monthly tax of one twenty-fourth per cent. on its deposits invested. Justices Grier and Nelson dissented. Mr. Field did not sit in the case.

Naval Officers in Revenue Service.

NEW YORK, March 12.—A Washington special says a bill is in preparation to be offered in Congress, empowering the Secretary of the Treasury to dispense with naval officers in the revenue service, at different points, if not detrimental to the public interests. Most of these officers are mere sinecures.

CITY AND SUBURBAN.

Meeting of the Temperance League.

According to announcement a meeting of the Pittsburgh Temperance League was held last night at the Sixth Presbyterian Church, Rev. Dr. Wilson, Pastor. Notwithstanding the inclement weather, the lecture room of the church was crowded, and the proceedings were of a most enthusiastic nature, showing how much the people had their hearts in the cause. Dr. McCandless, the presiding officer, having announced the hour of opening, the exercises were commenced with prayer by Rev. S. B. Reed, after which Dr. McCandless stated that the object of the meeting was to hear the report of the committee appointed at the last meeting to frame certain laws to be submitted to our Representatives in Harrisburg relative to the liquor traffic. The minutes of the preceeding meeting were then read by the Secretary, and adopted.

Prof. W. W. Dickson then presented the draft of the bill which had been prepared, and of which we can only give a brief synopsis.

Section 1st. Gives the price of license for eating houses and taverns where liquor is sold at from $500 to $1,000 in the city; $300 in the boroughs, and not less than $100 elsewhere.

Section 2d. Requires the certificate of twelve repatable men, who shall be freeholders, that a tavern or eating house is necessary in their ward, borough or precinct, the provisions being the same as before in regard to the reputation of the petitioner.

Section 3d. The twelve signers shall go on the petitioner's bond as security, the bond to be not less than $1,000.

Section 4th. For a violation of the law, the penalty in the first case shall not be less than $50, nor more than $300, and imprisonment for any time not exceeding three months, and disqualifying the party offending from receiving a license for three years. For a second offense, the fine to be not less than $100 and imprisonment for not more than six months, and forever disqualifying the party from obtaining license.

Section 5th.—If a person having a license violates the law, in any sense, his license shall be revoked.

Section 6th.—Of the monies paid under the provisions of this act, one half shall go to the State, and one half to the county.

Section 7. If a riot shall occur in the house of any liquor dealer who is selling liquor in violation of the law, he shall be considered as an aider and abettor, and be liable to prosecution and punishment, and shall be held responsible in civil action for any damage done.

Section 8. A remonstrance signed by a majority of the voters of any ward, borough or township, against granting a liquor license, for eating house or tavern in said ward, borough or township, and presented to the Court of Quarter sessions, it shall be deemed conclusive evidence that no such hotel or eating house is necessary, and no license shall be granted.

Section 9th.—No license shall be issued to sell liquor with other goods in such counties where the annual sales of goods are less than $10,000. Where the annual sales are $300,000 or more, the license shall be $1,500 per annum; where the annual sales amount to $200,000, the license shall be $1,000; where the annual sales are $100,000, the license shall be $500; where the annual sales are $50,000, the license shall be $250; where the annual sales are $25,000, the license shall be $150; and for any sum less than $25,000, the license shall be $100.

Section 10th.—Provides that no officer shall receive costs or office fees from any person charged with a violation of any of the provisions of the law regulating the sale of liquors, until the person so charged shall be tried by the Court, or the case settled by consent of the Court, and any officer violating this provision shall be deemed guilty of a misdemeanor, and upon conviction, shall pay a fine of not less than $50, nor more than $100.

Sec. 11th. Any person renting a house to a party to sell liquor in violation of the law, he or she shall be deemed guilty of a misdemeanor, and upon conviction shall pay a fine of not less than $50, nor more than $300.

Sec. 12th. Provides that all licences shall expire on the first day of April following the license. Provided, that for the year 1867, and thereafter, no license shall be granted after the first of April in each year, and no application shall be considered that shall not have been filed before the 1st of February of each year; Provided further, that the Court of Quarter Sessions shall have the power to fix the rate of all licences granted before the 1st of January, 1867, pro rata, according to the time between the granting of the license and the 1st of April following.

Section 13th. Gives the Court of Quarter Sessions power to make all rules and regulations of proceeding in cases of granting license, and in any case where it may entertain doubts concerning the facts set forth in the petition, said court shall have power to appoint a suitable person to investigate the facts in the case, and report them.

Dr. Wray moved the acceptance of the foregoing bill as a whole.

Alderman Steel requested that it be taken up section by section and acted upon.

Mr. A. W. Foster intended to offer a bill as a substitute for the whole bill. This was not a political nor a financial question, but a moral one. Liquor selling was either morally right or morally wrong. If it is right, it should be open to all, as well to the poor man with his little doggery, as to the rich one with his plate glass windows, and cut glass decanters, but if it is wrong it should be prohibited altogether.

Prof Dickson said that the gentlemans ideas in regard to prohibition did not disagree with a majority of those in the house, but that they were impracticable. When he could not dam a water course, he wished to turn its waters into a channel where it could do the least damage.

Quite an animated discussion took place between Messrs. Foster, Steel, Wray, Dickson, Robb, Trimble, Bailey, Little, Munroe, Rev. Dr. Wilson and others in regard to the matter. Mr. Foster asked permission to read his bills that he had prepared, which was granted him. We can only give a synopsis of the bills. The first was as follows:

SECTION 1. Any resident of the county who shall file a bond with two good securities, approved by the court, for the sum of $3,000, shall have the privilege of retailing liquor in any quantity for one year from the first Monday in January next.

Section 2. The Judges shall meet on the first Monday in January next, and shall estimate the expenses of the Courts of Oyer and Terminer, and of Quarter Sessions, of the Jail, and of the Alms houses and Poor houses of Pittsburgh, and Allegheny city and county for the year, and shall assess the same upon the licensed liquor houses in proportion to their respective sales, and shall file their assessment with the Clerk of the Court who shall advertise the same in each daily and weekly newspaper in Allegheny county, stating that such assessments have been made, and the same shall be entered upon a docket provided for the purpose, in the form of a judgment in favor of Allegheny county against such persons and their sureties, and shall be a lien upon their real estate as other judgments.

Section 3. The Clerk shall, in not less than thirty, nor more than forty days thereafter, issue a writ against the parties who have not paid their assessment to the Treasurer of Allegheny county, and the same shall be directed to the Sheriff with orders to arrest the delinquents, and confine them in jail until the assessment is paid.

Section 4th. The money so collected shall be paid to the Treasurer of Allegheny county, to be paid out by him on the order of the proper authorities of the several poor houses, and the Commissioners of Allegheny county, for jail and court expenses.

Section 5th. The Clerk to receive for his fees $10 on each license, and the sheriff to receive his fees as in other cases, all of which are to be paid by the defendants. The compensation of the county Treasurer to be the same now allowed that officer for receiving and paying out money.

Section 6th. No license now issued shall be in force after the 1st day of January, 1867, and provides the punishment in case of its violation.

This substitute having been voted down, Mr. Foster offered another, by which liquor sellers were to be outlawed, giving them no rights whatever under the law, and in case one of them was killed, the party committing the murder should be cleared, provided he could prove that the man whom he had slain had sold to himself, his father or his brother, any liquor after the passage of this law. It was voted down, like the first.

Our space will not allow us to give even a synopsis of the discussion which ensued in regard to the passage of the three bills offered. It was, however, very spirited, and went to show that the League were men and women who were in earnest in their work. At a late hour, the question was taken upon the bill presented by the Committee, which was adopted without a dissenting voice except that of Mr. Foster, who stuck to first principles, and was determined to have an open door, or total prohibition. The meeting then adjourned to meet next Monday night at Wilkins Hall. The audience was dismissed with a benediction by Rev. Sylvester Scovel.

Borough of Lawrenceville.

The Republicans of Lawrenceville have nominated the following ticket, to be voted for on Tuesday March 13th.

Burgess—S. H. Keller.

Council—First Ward, H. Riddle, R. Watson; Second Ward, A. D. Anderson, W. C. Brown.

School Directors—First Ward, C. Hasbrouck; Second Ward, J. B. Stewart.

Judge of Electors—First Ward, N. R. Craig; Second Ward, James T. McClure.

Inspectors of Elections—First Ward, R. Beatty; Second Ward, S. McMahon.

Return Inspectors—First Ward, James McKay; Second Ward, James W. Campbell.

Assessor—First Ward, Wm. Jancey; Second Ward, Charles North.

Assistant Assessor—First Ward, Capt. E. M. Johnson.

Constable—Joseph Pillows.

Auditor—M. M. Bosworth.

The following resolution was unanimously adopted:

Resolved, That this meeting heartily endorse the resolutions and nominees of the recent Republican State Convention; and the nominees of the Borough offices, in their acceptance of the nominations of this meeting, endorse the same.

The Copperheads of the First Ward, and the Coppertails of the Second Ward, have opposition tickets in the field.

Rebuilt.—The bridge over the Shenango river near Wheatland, on the Erie & Pittsburgh Railroad, has been rebuilt, and the cars now pass over it. The managers of that thoroughfare have been very expeditious in putting up the structure in so short a time.

Blackwood's Magazine, for February, reprint of L. Scott & Co., New York, has just been received by W. A. Gildenfenny & Co., No. 45 Fifth street. It maintains its high literary reputation.

Some of the capitalists of Bellefonte, are about to erect a rolling mill for the manufacture of Russia sheet iron, on Spring Creek. The *Central Press* says that all the arrangements for the works have been made, and that they will be in operation in a very short time.

Pittsburgh M. E. Conference.

FOURTH DAY.

Conference assembled at the usual hour, Bishop Baker in the Chair. Religious services conducted by the venerable Rev. T. M. Hudson, we believe the oldest effective preacher in the Conference.

Immediately after the adoption of the Minutes, the Court of Inquiry on the case of Rev. J. W. Cessler, reported that the charge and specifications were not sustained, and his character was examined in open Conference and passed.

Rev. W. A. Davidson offered the following resolution, which was adopted:

Resolved, That it is the sense of this Conference that the Centenary Committee appointed at our last session is not only to make arrangements for the appropriate Celebration of the Centenary of American Methodism within the bounds of our Conference, but also to designate the objects to which the local funds shall be given.

Recommendations of ministers for recognition to Orders as Elders were called for. Rev. Garret Color, formerly an Elder in the Free Will Baptist Church; Rev. Peter S. Saltsman, an Elder in the Church of the United Brethren in Christ; Rev. Robert J. White, formerly an Elder in the O. S. Presbyterian Church, having been recommended by Quarterly Conferences, were recommended for recognition of Orders, provided they take the usual ordination vows required by the Church authorities.

The following resolution was offered and adopted, and a copy ordered to be sent to the Speaker of both Houses of the Pennsylvania Legislature:

Resolved, By the Pittsburgh Annual Conference of the M. E. Church, in Conference assembled, that we do most solemnly and earnestly protest against the bill now pending in the Legislature of this State in relation to marriage, imposing fine and imprisonment upon ministers for marrying minors, as not only exceedingly embarrassing to the ministry, but as imperilling their interests and liberties, and through them the liberties of their people, and that we recommend in its stead the passage of a license law similar to that in Ohio and other States, a bill of which we understand is now before the Legislature.

On motion the report on the State of the Country was taken up, and after earnest discussion adopted. The discussion was mainly upon a resolution condemning the course of President Johnson for his speech on the 22d of February. While the sense of the Conference was that it was an unfortunate speech, yet it was thought best not to adopt the resolution, lest it might tend to increase the unpleasant feeling so rife in the public mind. The report is quite lengthy, and of the most radical type. Want of space will only allow us to give the resolution as follows:

Resolved, 1. That we recognize the hand of the God of nations in the overuling of our destines in the stormy hours of peril and conflict, thus far, and to His name ascribe the glory of our triumph.

2. That we unite in returning thanks to Almighty God who has made the wrath of man to praise Him, and has shown forth His power and glory in bestowing the blessings of freedom on millions of our enslaved fellow-men.

3. That, regarding as we do those who have been thus liberated, as our fellow-men, and not as chattels, recognizing as we do the hand of God in their deliverance; conceding to them the position of mental powers, which though criminally repressed in their exercise are naturally acute and capable of developement and remembering as we do their devotion to and their efforts in the cause of the Union and liberty, we claim and demand for them not only protection from the cruelties of their former masters, but also equal rights and privileges before the law.

4. That we deprecate wickedness in high places, and recognize it as a christian duty to employ the right of suffrage in the elevation of such only, to positions of power and profit, as are men of morality and sobriety.

5. That we shall ever regard it as a duty enjoined upon us by the religion of Christ to pray for our rulers, that they may be men of wisdom and virtue whose lives shall adorn the high and responsible positions they occupy, and that we shall esteem this duty the more incumbent as they seem to depart from these principles.

6. That believing as we do, that the division of our own Church contributed to the secession of the rebellious States, and believing that, in view of her numbers and influence, the re-union of the Church, (now that the cause of the difficulty is removed,) would tend materially to cement and strengthen the bonds of the Union among the States; we will hail with pleasure the day when, in the Providence of God, that re-union can be consummated in a manner honorable to all concerned.

Report of the Pittsburgh *Christian Advocate* was presented, and adopted. The Exhibit of the Publishing Committee shows a net profit for the year, ending December 1, 1865, of $1,928.38. Resolutions were adopted approving of the enlargement of the paper and other improvements, and also tendering thanks to the scholarly editor for the able management of his department.

Committee on Centenary Fund reported that according to papers placed in their hands, by the Centenary Board of the Pittsburgh Conference, the following are the investments:

College funds invested	$52,841 38
Missionary funds invested	1,176 50
Superannuated Preachers funds inv'd	9,828 00

A resolution of thanks was tendered to the members of the Centenary Board for their able management of the interests committed to them.

The Sunday School report was formally adopted. We gave statistics in yesterday's paper.

The report of the Freedman's Relief Association was adopted. The resolutions appended to the report express thanks that slavery, "the sum of all villainies," has ceased, and commend the National Freedman's Association to the favorable consideration and support of the Church.

The report on Parsonages recommends that the various charges should provide suitable houses for their ministers, and supply them at least with heavy furniture.

The Tract Cause is commended, and each charge in the Conference requested to lift a collection in its behalf.

Rev. D. A. McCready, transferred to the Missouri Conference, is commended to the Christian fellowship of the ministers and members in his new adopted field of labor.

A resolution of thanks (name withheld) for donating a copy of "Arthur's Proportionate Giving" to each minister of the Conference.

The following paper was adopted:

WHEREAS, There are separate organizations of Methodism, with no differences of doctrine, or form of government that need keep them separate, and

WHEREAS, It would seem desirable that in this hundredth year of American Methodism, those branches should be re-united in the one family,

Resolved, That we will respond to all propositions for such re-union as will not involve any departure from our doctrinal integrity or any radical changes in our economy.

Report of the Court of Inquiry in the case of J. Crisman, charged with immorality, charges sustained and that he is therefore expelled from the ministry and membership of the M. E. Church.

Committee on Memoirs presented sketches of Revs. J. Shane and J. I. Crady, who had died during the past year.

Adjourned with benediction by Rev. W. Smith of Manchester, Pa.

CONFERENCE MISSIONARY SERVICES.

The Conference Society met at three o'clock Rev. J. M. Bray, Jr., in the chair; Rev. J. Horner, Secretary. After the usual devotional exercises, Rev. I. N. Baird, D. D., by appointment at the last session of the Conference, delivered the annual Missionary sermon, using the following words as a text, found in Acts 1:8—"But ye shall receive power after that the Holy Ghost is come upon you, and ye shall be witnesses unto me both in Jerusalem and in all Judea and in Samaria, and unto the uttermost parts of the earth." The subject discussed by the Doctor was "The Conflict and Victory of the Church," which he presented in beautiful language and chaste, and in a style that gave great satisfaction to the large audience. It contained thoughts of great value to those engaged in promoting the missionary cause, and the graphic description of the conquests of the Church was peculiarly interesting. We present the following brief synopsis of this valuable sermon:

After some remarks of an exegetical character these divisions were stated:

I. The Church of Christ, organized as an evangelistic agency, was first to bestow its labors upon the home field.

II. The Church, in her more aggressive policy, is afterward charged with the duty of subduing the world to Christ.

Until near the close of the first half of the first century the Apostles labored almost exclusively for the conversion of the Jews. Christ confined his personal Ministry to the "lost sheep of the house of Israel." The Disciples were at first specifically restrained from going to other people. "Beginning at Jerusalem" they gradually widened the sphere of their labors. The first third of a century brought Christ to the cross. The second third ends with the destruction of Jerusalem and of the Jewish policy. The last third opened with but one of the Apostles living, and closed with his death. The early church now spreads with unexampled rapidity.

Persecutions may retard, but cannot destroy the everywhere victorious faith; and in less than three short centuries, we trace the cause of the Crucified from the manger in Bethlehem to the throne of the Cesars. The speaker next traced that Church in her victorious march toward universal dominion. At length, wedded to the State, her doctrines are corrupted, her ecclesiastical structure conformed to the analogy of the State. Henceforth we see a struggle for civil empire, and thus, through centuries of darkness, through nearly two centuries of crusades, we reach the revival of Missionary love and zeal in the Reformation. The Church was then traced to the then newly discovered continent of America, where it was shown it acquired a purity and power—separated from all alliance with the State—which it had never attained in the Old World. Here the Church had found her earthly Canaan; and from these shores is now going forth to every quarter of the globe, the gospel of salvation as once it went forth from Judea. Finally, it was claimed that this country is to leave a deeper impress upon the religion of mankind than any other nation on the globe.

At the close of the sermon, the Secretary read the annual report, from which we learn that leaving out of view the contributions to the Missionary cause of two churches in the Conference, which fall short of last year very considerably, there is a gain in the collections this year over last. But in consequence of the fact stated the amount does not quite reach last year. The whole sum is $38,305,62.

Eloquent and instructive addresses were delivered by Rev. Dr. Nesbit, editor of the *Pittsburgh Christian Advocate*; Rev. E. B. Snyder, pastor of Christ Church; Rev. Dr. Pershing, President of Female College, and Rev. Dr. C. A. Holmes, pastor of Smithfield Street Church.

The following officers were elected for the ensuing year: President, Rev. Dr. Drummond; Vice Presidents, Rev. J. W. Shriver, William Mickey, Esq., Rev. I. Dallas; Secretary, Rev. J. Horner; Treasurer, Rev. J. L. Read.

LECTURE AT THE COURT HOUSE.

Rev. W. B. Watkins, of Pittsburgh, by invitation of the citizens of Washington, delivered his popular lecture on the "Use, Abuse and Beauty of the English Language," at the Court House in the evening. The building was literally packed with a highly intelligent audience. Some passages were received with uproarious delight.

PERSONAL.

This rather pretty inland town contains some solid men, who have quite a State reputation for their liberal views and labors to promote the interests of our commonwealth. Of this class we might name Joshua Wright, Esq., and gentlemen of wealth and culture. Quite a number of Pittsburghers have arrived to witness the proceedings of the Conference, and enjoy the religious services connected therewith, among whom we notice J. W. F. White, Esq., and Messrs. J. B. Hubley, W. D. Patterson, H. Samson and J. Shallenberger.

SABBATH SERVICES.

The Churches of all the denominations (except Episcopal) were supplied by the ministers of the Conference. Rev. E. B. Snyder preached at the First Presbyterian Church at the morning hour, and in the evening Rev. W. A. Davidson gave way for Rev. Dr. Munroe, Corresponding Secretary of the M. E. Church Extension Society, to preach. Rev. W. B. Watkins preached at the M. P. Church. These are the only ministers from Pittsburgh that preached on Sunday. Bishop Baker preached at the M. E. church in the morning, after which he ordained three young ministers to the office of Deacon, Rev's Pittenger, Chapman and Morton. At night, Rev. Dr. Loomis, President of Allegheny College, occupied the pulpit of this Church.

But the great and crowning service of the day was the Centennial service in the M. E. Church at 3 o'clock. Rev. Dr. Nesbit, by appointment one year ago, preached a sermon on the Centenary of Methodism, in the presence of a vast throng of persons, including the members of the Conference. It was one of the grandest efforts of the Doctor's life and one he may well be proud of, as it contained some of the sublimest thoughts, couched in elegant language, that could be uttered on such a grand theme. The following meagre sketch but poorly represents the character of the discourse.

The Criminal Court.

MONDAY, March 12.—Before Judges Stowe and Brown.

Louis Myers, of Duquesne borough, convicted of selling liquor to minors, was fined $50 and costs, and sentenced to ten days' imprisonment in the county jail.

Charles Milligan was acquitted of a charge of assault and battery, and the prosecutor, John L. Williams, was ordered to pay the costs.

Vincent Milligan was acquitted of a similar offense, and William A. Smith, prosecutor, sentenced to pay the costs.

John Koechline, David Morgan and Hugh Campbell were tried for aggravated assault and battery, on oath of Mr. Beems. Koechline was acquitted, Morgan was convicted of assault and battery, and Campbell was likewise convicted, but recommended to the mercy of the Court.

Mrs. Judy McFadden, a "poor widow" who keeps a little tippling concern in the Seventh ward—striving to make an honest living for herself—was brought up for sentence on two charges for selling liquor without license. Her counsel made an eloquent appeal to the Court in her behalf, reciting her bereavement by the loss of one son and the sickness of another, and urging the further fact that she had been for some time back considering the propriety of quitting the business, and would have done so but for the conviction that she cannot make a living at anything else. It was true that she had been before the Court some half a dozen times before, and been mercifully dealt with, but it was hoped that this would be the last occasion for an appeal for clemency.

Judge Stowe remarked that this case was one of those which occasioned the Court no little annoyance. It was hard for the Court to sentence an unfortunate woman to jail for selling without license, when the fact was apparent that scores of men, some of them scarcely a stone's throw from the Court House, were driving a large and profitable business by selling without license. But somehow or other these men were never brought before the court. He did not know how this came, but so it was. Well, so far as Mrs. McFadden was concerned, her case would have to be disposed of. The Court did not desire to sentence her to jail, and yet it seemed that she was determined not to quit selling. There was another alternative, however, and that was to make the fine so severe that the business would be unprofitable. Mrs. McFadden was therefore sentenced to pay a fine of *fifty-five dollars* and costs in each case, and stand committed until the sentence is complied with.

The Frame Building Law in Allegheny.

EDITORS OF THE GAZETTE: I desire through your columns to submit some of the reasons why the ordinance prohibiting the erection of frame buildings in Allegheny city ought not to be repealed.

The ordinance was made for the general security of the public against disaster by fire, and the justice and propriety of its enactment is admitted by most of those who now wish to repeal it for a temporary purpose. Like the paving law, or that which prevents the erection of a powder magazine, or the existence of a public nuisance—while the general necessity and utility of such laws must be admitted, they sometimes bear hard on individuals. Private interests are very properly made to conform to the general good. This principle of the frame building law has been insisted on for many years, and the very frequent applications to councils, of individuals, for the privilege of erecting frames has been denied. Probably since the law was made, there have been twenty times as many persons wanting to erect frames, and who would have done so but for the existence of the law, as there are persons who will do so if the law is repealed for a year. They had the same desire as the persons who now want the law repealed, but from considerations of public good, were not permitted. Justice requires that the sacrifice of interests they have made shall not be turned into injustice by granting now to a few that which has been heretofore denied to so many. Special legislation for the benefit of individuals is a dangerous principle to introduce, and if the people give their assent to the principle, it will make the councils—not a body of select men chose to act for the public good, but of individuals who will seek the position each to accomplish some private end without regard to the public interest.

An argument used in favor of the repeal is, that poor men want to erect homes for themselves. Let any poor man think a moment and he will know that this is a deception. No poor man will be so foolish as to build a frame house at the present high prices of materials and labor. If any one builds it will be the capitalist, or the owners of large estates, for the very purpose of availing themselves of the present necessities of the poor, by charging the exorbitant rents which now prevail. Nor when the prices for building come down is it likely that the poor man can then build himself a frame house in this city. The same considerations which will make the capitalists more anxious to repeal the law—motives of personal profit—will lead to its re-enactment. It will then be said, "the pressing demand for houses no longer exists—rents are down—more frame buildings are dangerous," and the owners of the frame buildings will want the law re-enacted to prevent further competition in renting the miserable tinder boxes which they will have erected if the law is now repealed.

It is said that the votes for and against the repeal will be cast from motives of present interest, rather than public good. If the public good is only consulted, the law will certainly not be repealed. If all who are personally interested go to the polls, it certainly cannot be repealed. The danger is, that those who are interested in having it repealed, that they may make more money thereby, will all vote and work, while others neglect their duty. Every man who has a vacant lot, and who would not like to have its value lessened by a shanty or a stable adjoining him; every one who has a house near vacant lots, and does not want his fire risk and insurance increased; and every one who does not wish to decrease the taxable value of property, and the general desirableness of Allegheny as a home, ought to go to the polls and vote against the repeal. It is not meant in the above to infer that many of the vacant lots will have frame structures on them this year if the law is repealed—for I do not believe there will be many—but no man knows that one of the few will not be put along side of his own premises.

There are tax payers who do not yet own real estate, who are interested in this question. One of them said to me on Saturday he would vote against the repeal, "because," said he, "I have to pay a big rent, and it is better to have a room in a good brick, than give the same price in a wooden house and get burnt out like the people on Butchers run, and over on Washington street." The writer knows a man who is anxious to build a row of frames. He says he can get it up in six weeks, and that it will "pay better than anything else he can put his money in," and he has now as much money as he can well use. Let him build a *brick* row, as others have been compelled to do, and if our working men must pay the landlords half their wages in rent, let them have safe and comfortable quarters for their money. There is much to be said on this subject, but I have taken enough of you space.

LIBERTY STREET.

Amusements.

THEATRE.—To-night Mr. and Miss Couldock appear again in that serio-comic play entitled Old Phil's Birthday. The wonderful fidelity to nature, which Mr. Couldock gives in this piece has increased his popularity, if the thing were possible, even among his old friends. The entertainment concludes with One Touch of Nature.

OPERA HOUSE.—At the Opera House Helen Western brings out something out of the usual style—the "Female Forty Thieves." This piece abounds in local hits, and is sure to be very amusing. The performance will commence with the "Pet of the Petticoats," and will conclude with the "Allegory of Washington" and the "Goddess of Liberty," during which there will be a grand display of fire works.

MASONIC HALL.—Wood's celebrated minstrels, from Wood's Minstrel Hall, Broadway, New York, will give their first performance to-night at Masonic Hall. They are spoken of as being performers of rare merit, and those who have seen them are loud in their praise. We have no doubt but that the Hall will be crowded to-night.

The religious excitement at Williamsport, Lycoming county, has been very great within the last four weeks, four hundred persons professing to have been converted.

In 1859, Lancaster county produced more wheat than any other county in the United States. She raised 2,125,722 bushels.

FOR GOVERNOR:

MAJ. GEN. JOHN W. GEARY,

OF CUMBERLAND COUNTY.

NOTICE TO ADVERTISERS.

Notice is hereby given that hereafter all TRANSIENT advertisements received at this office must be paid for when handed in, except in the case of yearly advertisers, whose bills will be rendered quarterly, as usual. Advertisers will please make a note of this, as the rule of cash payments for advertisements of the character stated, will be inflexibly enforced.

The price of our Morning and Evening editions is THREE CENTS at the counter or from newsboys, served by carriers at FIFTEEN CENTS per week.

RESUMPTION OF SPECIE PAYMENTS.

For a [illegible] year past, a large majority of the active business men of this country, including most of the persons reputed eminent for financial experience and acumen, have protested against an early resumption of specie payments. It has been a favorite idea with them that it was better, under any and all aspects of the case, to continue the high rate of premium on gold. They have gone so far as to insist that the maintenance of a high and uniform premium on gold was essential as a basis of calculation for operations in any department of commercial and manufacturing enterprise, and have pointed out the way in which this uniformity was to be preserved; that is, by keeping the paper currency in use at a fixed rate with the metallic currency held in reserve.

The theories thus propounded have a certain degree of abstract plausibility; but when brought to the test of practice are found to be hollow and delusive. During all the months these theories have been rehearsed the volume of paper currency has increased, not only absolutely but relatively, and the price of gold has steadily declined, until five-sixths of the highest rate of premium has fallen off. In view of these notorious facts, the financial gentlemen ought to suspect that some material elements have been left out of their computation, and that a revision of it is indispensable. What these deficient elements are, it is not needful for us to attempt to explain.

The point to which we wish to draw attention is of another character. We are nearing a specie basis. Some inconveniences have, indeed, been experienced, but not considerably more than have often been encountered, as the result of fluctuations, when the specie basis remained intact. Is it not better, therefore, instead of trying to prevent a return to specie payments, to continue the approach thereto? If five steps out of the six have wrought none, or next to none of the derangements and revulsions predicted as inevitable to the movement, it seems decidedly absurd to infer that the sixth and last step will result in calamity, or not harmonize in all respects with the preceding ones.

But, even if slight and temporary inconveniences should be incurred, it stands to reason that the accruing advantages will compensate, and more than compensate, for them. A falling off of thirty per cent. more in gold and the desired consummation will be reached. The business of the country will be bottomed on coin; and then estimates for the future can be made with as much certainty as is practicable where so many variable and recondite elements necessarily enter into the conclusions.

THE WAY THE WIND BLOWS.

We have already given intelligence from sundry municipal elections throughout the North, showing that the Republicans have met with most remarkable success therein, and that they have succeeded best where they have taken the most radical ground. To-day we have further instances.

Last year the Republicans carried three-fourths of the towns in the local elections in the State of New York—a victory so thorough that it was not thought possible to exceed it. Yet this year it *has* been exceeded; and that party has just now carried thirty more towns than it did last year. And that, too, by increased majorities, as the following table of the result in nine of the leading cities will show:

	1866. Majorities. Rep.	Dem.	1864. Majorities. Fenton.	Seym'r.
Troy	....	311	....	808
Rochester	1,062	....	....	113
Utica	46	....	....	290
Oswego	40	....	....	151
Auburn	400	....	383	....
Poughkeepsie	347	....	237	....
Ithica (say)	....	75	48	....
Elmira	58	....	173	....
Ballston (say)	25	....	....	95
Total	1,977	386	841	1,456
Republican majority now				1,591
Democratic majority in 1864				615
Net Republican gain				2,206

So much for New York. At the late municipal election at the capital of Iowa the ultra radical, colored suffrage anti-veto ticket was elected by one hundred and fifty majority. Last year the Republican majority was twelve. On the same day, McGregor, a Democratic stronghold in Northern Iowa, elected the radical anti-Johnson ticket by a handsome majority. A well contested election was also held in Rock Island, which resulted in the repudiation of the JOHNSON doctrine policy by one hundred and thirty-three majority, in that hitherto Copperhead city. The Republicans stood together an unbroken unit, and quite a number of decent Democrats voted with them, as will be the case everywhere.

The Common Council of New York, which is equally divided, twelve Republicans and twelve Democrats, have refused by a strict party vote, to pass the resolutions that had previously passed the Copperhead Board of Aldermen, indorsing the veto of the Freedmen's Bureau bill. This in a city where THURLOW WEED and HENRY J. RAYMOND are supposed to reign supreme, is a strong indication that the few Republican politicians in that city who have proved recreant, have not been able to make any impression upon the sturdy rank and file.

THE *National Intelligencer* does not like the resolutions of our State Convention, at which we are not surprised, as they were not framed for that purpose. It is trying, however, to make out that, because the Convention adopted a rule to refer all resolutions offered in Convention to the Committee on resolutions, without debate, that the platform was framed in a Star Chamber, and put through in the Convention under the gag. In all which it it is mistaken. Every Republican Convention held in this State has adopted the rule acted upon on this occasion, to refer all resolutions to the platform Committee without debate, so that the late Convention was but following an honored precedent; and the resolutions instead of being pressed through under the gag, went through under the pressure of an enthusiasm such as was never before witnessed at Harrisburg.

COMMERCIAL RECKLESSNESS.—The imports at New York last week were $8,500,000, gold value, equal to over ten millions in currency! And this, too, at a time when every warehouse in New York is groaning under the weight of unsold foreign goods, when the market is dull and declining, and no one buys except to supply present wants. Some people will get their fingers burned.

THERE WILL BE NO NEW PARTY.

The National *Intelligencer* quotes the President as urging the formation of a new party. A few of the old hangers-on about the White House, unwashed and unrepentant rebels with their toad-eating sympathisers, take up the cry and call for the instant formation of this new party; but there will be none formed. In every one of the Northern States the issue has been joined between the Republican and Democratic parties, and it will be fought out between those two organizations. Neither of them will give up the ghost to gratify TOM FLORENCE or the counsel for Mrs. SURRATT and WIRZ.

The Republican party is just now carrying everything before it, in the local elections everywhere taking place, hence it is in no hurry to die; and the Democratic party evinces no desire or design to give up the *prestige* of its name and ancient organization. The parasites who are now fastening themselves to President Johnson may do very well to defend the assassins of President Lincoln and the murderer of our brave boys at Andersonville; but is not given them to form a new political creed.

Those who do not like the attitude of the Republican party will have to find refuge in the Democratic party. There is no other to which they can fly. Parties do not die while living issues remain with which they are connected, and new parties cannot be formed by any man's *fiat*. Especially when there is no need of them, as now. There is no purpose to be gained by the new party that the democratic party does not subserve; and every man who wants to stand by old abuses, to keep down the rising spirit of liberty, establish caste and conserve every wrong that resists extermination can do it in that party better than he can do it anywhere else. It is the natural home of all such, and thither they will congregate.

NEW YORK.

The Republican Legislature of New has adopted the following resolutions:

"That it is our mature and deliberate conviction that no State within which there has been insubordination or rebellion should be admitted to share in the national legislation until it presents itself, not only in an attitude of loyalty and harmony, but in the persons of representatives whose loyalty cannot be questioned, and that each House of Congress is the sole judge of the qualifications and election of its members, and has full power to determine for itself when the constituency or the representatives meet the conditions above set forth.

That in all lawful ways the liberty and civil rights of every human being subject to the Government of the United States shall be protected and enforced, regardless of race, color or condition, against every wrongful opposing law, ordinance, regulation, custom or prejudice, and that the spirit which formed and organized and developed to the present strength that policy has not fulfilled its allotted work until every subject of that Government stands not only free, but equal before the law.

That we are in favor of extending equal suffrage in the District of Columbia to all male citizens of suitable age."

The National *Intelligencer* throws up its hat and calls this an indorsement of the President. We don't see it!

NAT. TYLER has withdrawn from the Richmond *Enquirer* because he was directed, under "General Orders" from General TERRY's headquarters to forward to the General's office, daily, a copy of his paper. This he calls tyranny, and being unwilling to submit to it he withdraws. He says:

"Hoping that the days of 'General Orders' will soon pass away, I close my connection with the *Enquirer*, wishing its readers a speedy return of the happy days and prosperous country which we all enjoyed when than connection began."

"Happy days!" Who was it destroyed the "happy days?" Who was it that gave no rest to the soles of his feet until the "happy days" were rooted out of existence?

HON. JOHN P. PENNEY.—The friends of Mr. PENNEY, (and they are legion) have presented his name as a candidate for the Congressional nomination in this district. Mr. PENNEY served with great distinction during two terms in the State Senate, of which body he was at one time Speaker, and is one of the most talented and accomplished orators in the western part of the State. The Republicans of the 22d district will evidently have abundant good material from which to make choice of a candidate.

SENATOR COWAN.—Speaking of this individual the *National Intelligencer* says:

"It is with pleasure that we see in recent indications of popular sentiment in Pennsylvania a fair appreciation of this statesman."

These recent indications are supposed to be the resolutions of the Legislature inviting him to resign, a similar resolution passed by the Republican State Convention, and resolutions denunciatory of his course passed by the Republicans of nearly every county in the State.

THE DIFFERENCE.—The Republican papers of the State have spoken with uniform kindness and courtesy of Mr. CLYMER, the democratic candidate for Governor; but the democratic presses, as soon as Gen. GEARY was nominated, commenced a personal warfare upon him in their usual disgraceful style. Nothing better, however, was to be expected of them.

ROLL ON.—A Harrisburg correspondent of the *Post* expressed the belief that the *unterrified white man's party* will roll up a large majority for HEISTER CLYMER. We fear that after the election they will simply *roll up their eyes.*

DEBOW'S REVIEW says that "the extensive mortality of the war has made white labor at the South very scarce." Was it ever very plentiful?

ON Monday night, Mr. McKean Buchanan and his daughter, Virginia, were announced for "Hamlet," at Terre Haute. Mrs. Buchanan was at the same time lying very dangerously ill at the Terre Haute House, of neuralgia of the heart. After the first scene, it was announced that Miss B. would not be able to appear as "Ophelia," on account of her mother's illness, and if the play went on, her part would have to be omitted. The audience desired the drama to proceed, but when Mr. Buchanan appeared and commenced the soliloquy, "To be, or not to be—" he was noticed to lack his usual fire and energy. He had not proceeded half a dozen lines, when his faltering voice broke, and falling into a chair, he exclaimed: "My wife is dying—take your money—run down the curtain—I cannot play!" and the audience slowly and sadly dispersed. Mrs. Buchanan was dead when her husband reached the hotel.

A MERE accident has just led to important discoveries in the ruins of the old manor house of Cebastro, which stands in the gorge of Uces, between France and Aragon. The recent high winds threw down part of the wall of the southern tower, and exposed to view the entrance to sepulchral vaults belonging to the period of Gothic denomination. Excavations were immediately commenced, and have brought to light a great quantity of jewelry of all kinds, as diadems, bracelets, rings, and pins. The diadems bear some resemblance to the crown preserved in the Cluny Museum, and enable us to form an accurate opinion as to the arts of the Visigoths.

FALLING OFF OF TRAVEL.—It is stated that there is a general falling off of travel on all the railroad lines throughout the country, but more particularly between Washington and the North. The Baltimore and Ohio Railroad Company still run seven through daily passenger trains, and two freight trains to Washington. Prior to the war, four passenger trains and one freight train were the usual number. As an illustration of the falling off, the average number of passengers during February, between New York and Washington, on each train, was 45, which is less than a car load.

GENERAL NEWS.

A MAN in Detroit has lately come into possession of property which has been in suit for more than three hundred years. In 1560, one of his ancestors in Germany loaned money to a certain Count, who died without paying it. The estate of the Count was put under sequestration, and has till now been in the control of the Prussian Government. A settlement having been reached at last, the heirs of the loaner have received more than a million of dollars, the principal and interest of their ancestor's claim.

A NEW YORK letter writer says that "Curious rumors prevail in literary circles touching a forthcoming work by a young mulatto girl of that city. The manuscript has been read by several well-known literary men, and it is said to show great brilliancy of style and vigor and thought. The only question seems to be as to the practicability of publishing it just at this time, but a prominent house is negociating for the work."

THE *Freeman's Journal* says that the ex-rebel colony at Cordova, Mexico, under the auspices of the exile Sterling Price, and which has "been there half a year, have neither gathered nor planted one ear of corn, or one beanstalk." It adds, tearfully, that this same colony, "with its Confederate exiles, is under an Imperial Prefect of the Department of Cordova, who is a *buck negro.*"

THE difference between the Pope and the Russian Minister has reached a crisis. Baron Meyendorff is still in Rome, and will remain there for a little while longer. The Russian arms have not yet been removed from over his door, but it is known that a complete rupture has taken place between the Vatican and St. Petersburg. There is no longer to be a Russian legation at Rome.

WHILE a good many Frenchmen and Belgians have volunteered to serve in the Pope's army, not shrinking from the liability to be beaten with sticks, it is observed that the Pope has not made a single recruit among his own subjects. All the young men in Rome, ambitious of a military career, enlist in the Italian service.

THE Republicans of Rochester have nominated Gen. Grant for the Presidency, and the New York *Times* ridicules the nomination. Somehow these special friends of Mr. Johnson seem to be very much afraid of Gen. Grant; but it is hard to see why, as their hero has declined beforehand to be a candidate.—*Chicago Rep.*

THERE is a counterfeit five out on the First National Bank of Auburn, New York. The color is much darker than the genuine, and the engraving coarser, having the appearance of being done on stone instead of steel plate. The head of Columbus on the back of the bill is larger than the genuine.

FRENCHMEN like to emigrate to any other part of the world rather than to French colonies. Of 778 emigrants who quitted Havre last January, 636 sailed for New York, 105 for New Orleans, 35 for La Plata, 1 for Quebec, 1 for Rio Janeiro, and none for the French colonies or Mexico.

SOME of the London merchants have instituted a custom of charging an admission fee to their stores. The lady-sightseers can enter by paying a small fee, and examine all the latest styles and costumes without making any purchases, unless disposed to do so.

A CONTEST is going on in Vicksburg, Miss., between Rev. A. J. Hawley, Cashier of the Freedmen's Savings Bank, in that city, and Major S. F. GEN. A. S. FULLERTON, late of the Freedmen's Bureau, removed for being too kind to the rebels of Louisiana, has been appointed Private Secretary to the President in place of General Mussey, who is about to take his trial for defrauding the Government.

GOV. ANDREW's friends declare positively that he has not been offered a seat in the Cabinet; that he would not accept one were it offered; and that the rumors are industriously circulated to create the wrong impression that the Governor endorses the President's policy.

THREE thieves, who undertook to plunder a drug store in Charleston the other night, very naturally mistook corrosive sublimate or some other poison for whisky, and were all found dead on the floor the next morning.

THE receipts of the American Missionary Society which is now working for the South, are larger than ever before. For the week ending February 10, it received in money $6,168, besides forty-nine barrels and sixteen boxes of clothing.

"HA!" exclaimed Mr. John Thomas, standing with his coat-tails drawn forward, and his back to the kitchen fire. "I've heerd a good deal about the cattle complaint, but am 'appy to say it 'aven't yet attacked my calves."

PROCLAMATION.--CITY OF ALLEGHENY, SS.—WOODEN BUILDING QUESTION.—I hereby issue my proclamation as ordered by the following resolution, passed by the Select and Common Councils, at their meeting on Thursday last, 22d inst.

Resolved, By the Select and Common Council of the City of Allegheny, that the Mayor be instructed to issue his proclamation calling a special election to take the sense of the citizens in regard to the frame law—said election to be held on the second Tuesday of March next; and that it be held at the usual election places, on the usual hours and by the usual election Officers.

In obedience to the requirements of this resolution, the citizens of Allegheny are requested to meet at the usual place of holding elections, on the second Tuesday of March next, being the 13th day of the month, between the hours of nine and seven of that day, there and then "to take the sense of the citizens in regard to the Frame Law, by voting for or against the repeal of said law."

Given under my hand and the seal of said city, the 26th day of February, A. D., 1866.

fe27:td JOHN MORRISON, Mayor.

PROPOSALS.

PROPOSALS FOR SAFES AND LOCKS.

WASHINGTON, D. C., March 3d, 1866.

Sealed Proposals will be received at the Office of the Supervising Architect, Treasury Department, Washington, D. C., until 12 M., APRIL 5TH, 1866, for furnishing the Burglar Proof and the Burglar and Fire Proof Safes required by the Treasury Department for one year from the acceptance of the proposal of the successful bidder.

Specifications and drawings for the Burglar Proof safes, showing the form of construction at present used, with alternate plates of iron and hardened steel, can be obtained upon application at this Department.

Burglar and Fire Proof Safes will be constructed in the same manner and cased with a suitable fire proof covering, the plans and specifications for which must be submitted by the bidder.

Safes to be shipped in perfect condition within a reasonable time from date of order.

The Locks will be furnished by this Department, but must be put in place by the contractor, and be in perfect working order when the Safe is turned over to the proper officer of the Government.

The bids to be per superficial foot, measured on the outside, and to cover all charges whatever, including painting and door fixtures, except combination locks.

Proposals will also be received for Burglar and Powder Proof Locks, to be accompanied with samples.

All bids must be accompanied by the guarantee of two responsible persons in the sum of $5,000, that the bidder will accept and perform the contract if awarded to him, the sufficiency of the security to be certified to by the District Attorney of the district where the bidder resides.

The Department reserves the right to reject any or all bids, or to award the contract for Burglar Proof Safes to one party, and the Burglar and Fire Proof Safes to another, if it be deemed for the interest of the Government to do so, and no bid will be [illegible] that does not conform to the requirements of this advertisement.

Proposals to be endorsed "Proposals for Safes and Locks," and addressed to A. B. MULLETT, Acting Supervising Architect, Treasury Department, Washington, D. C. A. B. MULLETT,

mh8:2awtap5 Acting Supervising Architect.

TO CONTRACTORS. RAILWAY LETTING.—The Allegheny Valley Railroad Company invite proposals for the GRADUATION, MASONRY, BALLASTING AND TIES required on fifteen sections of their road, extending from Oil City southward, and on fifteen sections, extending from Mahoning Creek northward to the vicinity of Brady's Bend Iron Work. Each section will be about one mile in length.

Maps, profiles, plans, and specifications of the work will be ready for examination at the Engineer's office, on Pike street, in the City of Pittsburgh, on the 1st of March next, and proposals will be received at the same place up to 6 o'clock, P. M., of THURSDAY, the 22D OF MARCH.

The line will be run out and staked as soon as practicable, but contractors can at any time obtain at the Engineer's office, in Pittsburgh, all the information necessary to enable them to examine and bid for the work understandingly.

Any further information desired can be had by application in person or by letter to the subscriber.

INSURANCE.

LIFE INSURANCE! LIFE INSURANCE!—THE NEW JERSEY MUTUAL LIFE INSURANCE CO. OF NEWARK, N. J., desires to call the attention of citizens of Pittsburgh to this subject, through their General Agent for the West, JAMES HUBBARD, at Monongahela House, Pittsburgh.

P. S.—One NEW feature in Life Assurance is that ALL OUR POLICIES are NON-forfeiting; for instance, if the party becomes unable to meet his annual payments he will NOT forfeit his policy, but the amount of Insurance will be diminished by a sum equivalent to the premium so unpaid, thereby removing the ONLY valid objection that can be made against Life Insurance. Books, pamphlets, &c., can be had of

AUCTION SALES.

FIRST CLASS

Country Residence and Grounds

AT AUCTION.

On TUESDAY, March 20th, at 2 o'clock, P. M., at Masonic Hall Auction House, 55 and 57 Fifth street, will be sold the desirable and convenient grounds in Wilkinsburg, within five minutes' walk of the station, fronting on the Railroad 76 feet, on street leading from Railroad 578 feet, and on the Turnpike [illegible] feet, containing 2½ acres, on which is a Dwelling that has been entirely remodelled, additions made, and finished in modern style with special regard to comfort. The First floor has parlors, 15 feet 8 inches by 33 feet, with two large bay windows; hall 9 feet wide, vestibule entrance, double doors outside and inside, arranged for winter and summer ventilation. Opening from the hall are the Library, Sitting Room or Summer Parlor, and Dining Room, the latter two have sash doors which open on a large Veranda overlooking the garden and fine view. The Dining Room is 15 feet 8 inches by 26 feet, and by opening sliding doors can be extended to 36 feet. The Kitchen is well furnished, having the best Range to be had, slate sink, with hot and cold water from a 75 barrel tank in the roof supplied from either a cistern or well, whichever is desired. Adjoining is a large Pantry; also a place for putting up fruits, &c. The second story has 7 chambers, well lighted, all opening from halls. Water Closet and Bath Rooms, with tinned copper Bath Tub, cased with walnut; stationary Marble Wash Stand; hot and cold water conveniences. Adjoining is a large room with flue for stove, intended for airing clothes when weather not admitting outside. The attic has 3 finished rooms and closet. The rooms have all fine Slate Marble Mantles, and full finished Grates with summer fronts. The halls, parlor and library are warmed with a well arranged furnace. The House has heavy cornice all around, in which are gutters made of galvanized iron; the water being conveyed from there in terra cotta pipes, under ground, to a tile barrel cistern, lined with hydraulic cement. The Water arrangements throughout are of the most complete character, and cost upwards of $2,500. There is also a well to receive all the waste and dirty water from the house and wash house, which is outside and apart from the dwelling. The house has been finely papered, wood-work oak grained in a superior manner; glass double strength, white, selected, and the minor details are in keeping.

There is also a small Brick House on the premises, suited for the gardener.

The Grounds are planted with Fruit Trees, 1000 Strawberry Plants, &c., and very little attention would make it a lovely spot for a home.

This property will readily commend itself from its many advantages, desirable situation, and is an investment. To business men it is a rare chance, its close proximity and easy access to the city at all hours, making it specially desirable.

TERMS—One-half cash; the balance, less $1,000, in one year, with interest. This $1,000 is a widow's dower, subject to the payment of $60 per annum during her lifetime; on her death to be paid in four annual installments of $250 each with simple interest. Further particulars at 55 and 57 Fifth st.

SEWING MACHINES.

THE RECENT IMPROVEMENTS that have been added to the

WHEELER & WILSON

MACHINE

Have greatly increased its value, still the price remains the same, and but little in advance of other and comparatively inferior machines. Many have purchased other machines simply because they could be obtained at a little less price, when they would accomplish but half the amount of work, and have invariably regretted afterwards that they did not obtain THE BEST.

Since the modern improvements have been added to this machine, it has become unnecessary to prepare the work at all by basting, so that the entire sewing of an ordinary garment is performed without basting, which is a very great additional saving of labor.

Below we give a table made up from actual experiments showing the relative time occupied in making garments by this machine and also by hand.

GENERAL NEWS.

THE New York *Post*, which is a supporter of the President's reconstruction policy, says:

"We print in this day's sheet a letter from a very intelligent gentleman in the State of Texas, who refers to the mischief occasioned in that quarter by granting pardons to some of the worst of the rebel tribe, and placing them in stations of public trust, while men who have been loyal to the Union are overlooked in the bestowal of offices, and many of the least guilty of the rebels remain unpardoned. The effect, as he affirms, has been to create an impression that the rebellion is regarded as a venial offense at Washington, and that those who have been engaged in it are objects of special sympathy and favor. We have no doubt, for own part, that a mistake has been made in this respect, which we hope it is not too late to correct by pursuing an opposite course in the pardons hereafter to be granted and the appointments yet to be made."

THE Philadelphia *Ledger* gives the following table, showing the exports of Petroleum from the United States in the last four calendar years:

From.	1865. Gallons.	1864. Gallons.	1863. Gallons.	1862. Gallons.
New York	14,620,099	21,335,784	19,547,604	6,720,273

The estimated excess of stocks January 1, 1866, over January 1, 1865, is 236,461 barrels of crude, and 23,824 barrels of refined, giving a total equivalent in crude of 268,226 barrels.

A CORRESPONDENT of the London *Times*, writing from Athens, Greece, announces that a new island began to rise above the level of the sea in the Bay of Thera (Santorin), in the Grecian Archipelago, on the 4th of February, and in five days it attained the height of from one hundred and thirty feet to one hundred and fifty feet, with a length of upwards of three hundred and fifty feet. It continues to increase, and consists of a rusty black metallic lava, very heavy, and resembling half-smelted scoria which has boiled up from a furnace. It contains many small whitish semi-transparent particles disseminated through the mass like quartz or felspar.

THE Chicago *Republican* is of the opinion that should the report that Lieutenant Maury is to be put in charge of the enterprise of laying a new telegraph cable across the ocean, prove to be true, the fact should be regarded as settling the fate of the Atlantic cable forever. Such a selection would be perfectly consistent, both with the previous management and the present temper of the British mind.

NEAR Toronto, Canada, two men, while boring last week for water at the bottom of an old well that had dried up, were suddenly overwhelmed by an influx of gas and suffocated to death. A candle being brought to the opening to rescue the men if possible, the gas took fire, throwing up flames eight and ten feet. After some hours the fire was extinguished by throwing on large quantities of salt.

VIRGINIA.—The Legislature recently in session passed the act for the construction of the railroad from Covington to the Ohio, and the act providing for the complete and final transfer of the James River and Kanawha Canal to the Virginia Canal Company, according to the contract with Messrs. Bellot de Minieres & Co., of France.

COL. W. B. STOKES, a member of Congress from Tennessee, in a speech delivered at Nashville, on the 22d of February, said he had information from sources that can be relied upon, and it was his opinion that Jefferson Davis winked at and was cognizant of the murder of Abraham Lincoln.

THE Charleston *Courier* chronicles the arrival there of one hundred and sixty-five German emigrants, men, women and children. They will form a settlement on the plantations in Christ Church parish, and raise cotton and vegetables.

OSCAR T. BURNS, of Albion, N. Y., is reported an absentee and defaulter, to the amount of more than $200,000. He was largely engaged in a speculation in real estate and stocks. Several banks are largely involved by the transaction.

M. HENRI MARTIN, the historian, is a candidate for admission to the French Academy. It is urged in opposition to him that he wears his beard long which no academician has ever ventured to do.

FAMILIES owning large houses in New York, are enabled to live abroad in fine style on the rent thereof. Many New York and Boston families are now living on such means in Paris and Liverpool.

THE Lawrence (Kansas) *Tribune* says: "We have reliable information from various sources that the wheat crop throughout the State is looking remarkably well."

A LITTLE boy recently died at West Bethel, Maine, in consequence of another boy piling stones, while at play, on his stomach, while lying down, so that he could not rise.

SPECIAL NOTICES.

☞ **AYER'S AGUE CURE**, for the speedy cure of *Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of miasmatic countries.*

Fever and Ague is not the only consequence of the miasmatic poison. A great variety of disorders arises from its irritation, in malarious districts, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis, and Derangement of the Stomach, all of which, when originating in this cause put on the intermittent type, or become periodical. This "CURE" expels the poison from the blood, and thus cures them all alike. It is not only the most effectual remedy ever discovered for this class of complaints, but it is the cheapest and moreover is perfectly safe. No harm can arise from its use, and the patient when cured is left as healthy as if he had never had the disease. Can this be said of any other cure for Chills and Fever? It is true of this, and its importance to those afflicted with the complaint cannot be over estimated. So sure is it to cure the Fever and Ague, that it may be truthfully said to be a certain remedy. One Dealer complains that it is not a good medicine to sell because one bottle cures a whole neighborhood.

Prepared by J. C. AYER & CO., Lowell, Mass., and sold by B. A. FAHNESTOCK'S SON & CO., and by all Druggists. ja16:2mM&wF

☞ **RETROUVEY'S TURKISH BANDOLENIAN HAIR TONIC.** THE DRESSING AND RESTORER OF THE AGE. TURKISH BANDOLENIAN.

RETROUVEY'S TURKISH BANDOLENIAN. What can be more acceptable than anything that will beautify? that will restore nature's decay by stopping the hair from falling out, restoring its natural color, making it to grow in luxuriance and beauty, assist in putting it up according to the present style and fashion and keep it in place? This *Retrouvey's Turkish Bandolenian Hair Tonic* will do, and for proof we refer you to any person who has tried it. It is acknowledged to be the beautifier of the age, the only Hair Tonic and Restorer worthy of the name. In Turkey, in France, in England, in America—everywhere where the "Bandolenian" is known—it is pronounced the *ne plus ultra* of Hair Preparations. Remember, it is free from all metallic poisons that are contained in most Hair Colors and dressings. It is the extract of many flowers and herbs, beautifully put up, an ornament to the toilet.

FOR SALE---FOR RENT.

FOR SALE.---A Farm of 44 acres and thirty-six perches, situate in Elizabeth township, Allegheny county, Penna. The improvements are a hewed log dwelling and frame kitchen bank barn and other out buildings; a good orchard apple and peach trees, of the best variety. The farm is underlaid with coal and limestone of the best quality; a flag stone quay of a No. 1 quality; very easy of access to the Monongahela river at Taggs Ferry. This small farm I am authorized to sell very low figures.

Also, a farm of about 200 acres, situated in West Wheatfield Township, Indiana county, Penna. The improvements are a good, comfortable, two-story Frame House, with 6 rooms, a large frame barn, carriage house, good corn crib, wash house, bake oven and a two-story stone spring house; about 150 acres cleared and in timothy and clover, a good orchard of apple, peach, pear and quince trees. The fencing is generally good. The land is of a good quality, abundance of limestone, and but a short distance from coal. This property will be sold very cheap.

Also, a Farm of about 240 acres adjoining the above. The improvements are a large two story Log House and a large frame barn; 175 acres cleared and under a good state of cultivation; a small apple orchard; a large two-story milk-house. These two farms united would make a first-rate Stock Farm, or will be sold separately.

Also, the best farm in Fairfield township, Westmoreland county, Pa., containing 240 acres; about 6 miles south of the Pa. Railroad. The improvements are two large hewed log houses; one of the largest and best frame barns in the township; two apple orchards. The whole farm is under a high state of cultivation. The fencing is all No. 1. The land is of the very best limestone; about 200 acres cleared, the balance in good timber. Possession on the first day of April, 1866. This property will be sold at a great bargain. The owner wishes to engage in other business.

Also, several other Farms ranging from $30 to $200 per acre.

Also, a Farm of 150 acres, situate in McCandless township, Allegheny county, Pa., about 9 miles from the city. The improvements are a Log House, a good barn, a young orchard of apple, peach and pear. I will sell this valuable property very cheap and on easy terms.

INSURANCE

INSURE YOUR LIFE IN THE

CHARTER OAK LIFE INSURANCE CO.,

of Hartford, Conn.

THE ONLY LIFE INSURANCE COMPANY IN AMERICA that now makes and pays an Annual CASH DIVIDEND on the first and each subsequent payment of premium. Its CASH CAPITAL, an accumulation of $1,500,000, is securely invested in public stocks and mortgages of REAL ESTATE. It is now in its 16th year of business, and has paid to the WIDOWS AND ORPHANS of its members the sum of ONE MILLION DOLLARS. To this date not a single case of litigation has occurred, an evidence that liberality and fair dealing is a specialty with this Company.

The policies of this Company are not forfeited by reason of non-payment of premium after the second year. No payments required after ten years, but policies continue good through life.

FROM YESTERDAY EVENING'S GAZETTE.

The Pennsylvania Railroad—Important Changes.

The Spring arrangement of the trains on the Pennsylvania Railroad has just been announced, and travelers and others should make a note of the changes, which will be found in the advertising columns. As we understand it, the mail train east, which left this city at 11:50 A. M., and the Pittsburgh and Erie Mail west, which arrived here at 12:45 P. M., have been taken off. The Altoona Accommodation, which left at 7:10 A. M., now takes the place of the Mail, leaving at 11:40 A. M. The Penn Accommodation No. 2 has been discontinued, and a fourth Accommodation to Wall's station has been substituted. Trains now depart on this road as follows:

Murderous Assault Upon Deputy Warden Smith.

On Saturday evening, Mr. Wm. Smith, Deputy Warden of the county jail, entered the cell of a young man named Kelley, tried last week on a charge of malicious mischief, and acquitted by reason of insanity. Kelley had been making a great noise in his cell and Smith went in to see what was wrong. As soon as he entered, Kelly wanted to know why he was kept there after he had been acquitted, and immediately after drew a knife, sharpened at the end like a dirk, and struck two or three times at Mr. Smith, who saved himself by warding off the blows until assistance reached him, when Kelly was seized and tied. The assault was violent and determined, and had it not met with equal determination serious consequences might have resulted to Mr. Smith.

No More Ice Boxes.

Wishing to make a purchase of some fish this morning, we were astonished to find that all the venders of the shiny piscatorials were absent and "nary a fish" could we purchase, for "love or money." Inquiring the cause we were informed that the Market Committee had decided upon the removal of all ice boxes in the market. To this the tenders of fish took exceptions, on the ground that they pay heavy rents for the privilege of selling fish, and if they cannot be allowed the privilege of an ice box in which to keep them pure and fresh until such time as they find sale for them, they will be forced to quit the market. The order, we believe, applies as well to the butchers who have as yet taken no action in the premises. We are not informed as to whether the action of the Committee was taken as a sanitary measure, or to inclose the space in the market. The matter will, doubtless, be settled to the satisfaction of all concerned.

Personal.

General Seth T. Clover, formerly Canal Commissioner of Pennsylvania, but now a resident of Kansas, passed through this city on Saturday. The General is largely engaged in "boring holes" in the earth in search of oil, not only on his extensive lands in Clarion county in this State, but in far off Kansas. The General, who looked the very picture of good health, during his brief visit, met many of his old friends, whom he assured that oil in paying quantities would be found in Kansas—six barrel wells at the depth of six hundred feet having already been touched. They are now going down to the depth of one thousand feet, and the General is confident that he will be enabled to telegraph to his friends in this region that flowing wells of extraordinary capacity will be reached. No stockholders will be received from the Pennsylvania oil regions at present.

The Connellsville Railroad.—Change of Schedule.

We direct the attention of the public to the card of W. B. Stout, Esq., Superintendent of the Pittsburgh and Connellsville Railroad, announcing a change of time in the running of the trains on this road, to take effect on and after Thursday, March 15th. The mail train will leave this city at *seven o'clock* in the morning, instead of as heretofore. A night train for McKeesport will leave this city at *ten o'clock*. The accommodation will leave West Newton at *six o'clock* in the morning, and returning will leave Pittsburgh at *six fifteen* in the evening.

Newspaper Change.—J. G. Ripper, Esq., editor and proprietor of the *Abend-Zeitung*, has disposed of the establishment to Messrs. Adam Becker, Anthony Weldman and Rudolph Kuhn, Esqs. Mr. Ripper has conducted the paper for three years past, and (as he occupies a portion of the *Gazette* building,) we have frequently been thrown in contact with him, and have ever found him prompt, upright and honorable. He will remain for a time with the new firm, and his services will no doubt be found valuable to them. We welcome Messrs. Becker & Co., among the editorial fraternity, and hope they may find the business both pleasant and profitable.

An Important Consolidation.—The Reno *Times* states that the articles of consolidation between the Reno, Oil Creek and Pithole Railway Company and the Kersey Road Company were signed on Friday in New York. The latter Company is the owner of the railroad track from Rouseville to Humboldt, upon Cherry Run, and this consolidation removes all the difficulties which have hitherto hindered the progress of the R., O. C. & P. Road upon that portion of the route, and ensures a more speedy completion of the line to Pithole than could otherwise have been accomplished. But a few days will now elapse before the locomotive will reach Plumer and Pithole.

Admitted.—On Saturday last, in the District Court, on motion of C. Hasbrouck, Esq., Butler C. Christy, formerly of Elizabeth township, was admitted to practice law in the various courts of this county. We have been personally acquainted with Mr. Christy for a number of years, and know him to be a young man of good character, and more than ordinary ability and genius. He served his country during the late war, and has on his person honorable wounds received in defense of his country. We take pleasure in recommending him to the patronage of our citizens, assuring them that any matters entrusted to his care will be well and carefully prepared.

Horrible Wife Murder.—Peter Boto, a resident of Loyalsock township, Lycoming county, murdered his wife on Sunday, the 4th inst., by striking her three times on the head with a hatchet. He is a Hungarian by birth, and had married the deceased, (an English woman named Phoeba Real,) at Harrisburg. He had but recently returned from the army. It is said that her character was not good, that they quarreled frequently, and that this was not the first time he had assaulted her in a murderous manner.

Pittsburgh, Columbus and Cincinnati Railroad—Change of Time.—The change in the schedule time of the trains on this road is as follows: The Fast Line now arrives at 9 A. M., instead of 8:20 A. M. The Mail departs at 6:20 A. M., instead of 8 A. M., and the Steubenville Accommodation leaves at 4:15 P. M., instead of 4 o'clock as heretofore. These trains run on Western time, which is fifteen minutes *slower* than city time.

Presentation.—The Neptune Engine Company, of this city, paid a visit to the Columbia Hose Company, of Allegheny, on Saturday, and presented them with a beautiful steel plate engraving of their house on Seventh street. The reception speech was made by Robert S. Morrison, Esq., on behalf of the Columbia, after which all present partook of a collation prepared for the occasion.

Boatman Drowned.—A deck hand named Carmichael was drowned from the steamer Sheridan, on Saturday, about five miles below Wheeling. The boat had stopped at Wegee for coal, and a coal flat had been fastened to her. The men were busily engaged in shoveling the coal from the flat to the boat, when Carmichael accidentally slipped and fell between the boat and the coal flat.

Change of Time of Pennsylvania railroad trains, according to Spring schedule, may be found in our paper of to-day.

Adultery.—Hannah Dangerfeld was committed to jail to-day, by Alderman Strain, to answer a charge of adultery, preferred by Josephine Bassett. The alleged offense was committed with one Providence Buncomb; but, in reply to a question on the hearing, Josephine testified that there was no "Buncombe" about it—it was actual fact. The parties are all colored.

John Luce, carpenter of the steamer Kate Robinson, accidentally fell overboard at Parkersburg, on her upward trip from Cincinnati, and was drowned before assistance could be rendered him. The deceased was originally from Canada, and shipped on the boat at Cincinnati.

Sunday Liquor Selling.—James Cox and Darbey M'Donald have been arrested on charges of Sunday liquor selling, and held for a hearing on Friday next, before Mayor McCarthy.

MARRIED.

FINANCE AND TRADE.

MONDAY, March 12, 1866.

Gold is a shade higher to-day, being quoted at 131¾, in New York, against 129⅝@130 on Saturday. Trade in a general way is stagnant. Some advance the theory that it is because of the uncertainty attending the prospective financial measures of the Government. Practically, this means an absence of that speculative spirit which, it is hoped, may be awakened if measures of contraction are not undertaken and steadily enforced. It is apparent that the business world contemplates a vigorous contraction with no satisfaction or patience, and this feeling, literally interpreted, means that none at all is desired. Fine spun theories of how it may be brought about safely and comfortably are abundant, but is not probable that one of them would be of the least use in practice. Actual progress towards a specie basis will not be popular if it involves, or is identical with, a cramping of business. It consequently is not likely to be all acceptable, and though not confessing it, the mass of business men do, by the actual logic of their position in the matter, prefer to reach the point by a commercial revulsion of their own bringing about by overtrading and a prostitution of credit. Consequently, those who have the administration of the financial affairs of the Government would be doing nearest right if they are guided merely by what would be best for the credit of the Government, and omit much consideration for other matters. To be sure, consideration for the credit of the Government covers all the points in the business interests of the country but it is taken from a stand-point different from that which the merchant occupies, and has in view more than mere temporary or individual interests, and doing best for the country must, in the end, be doing best for individuals.

—This downward tendency of coin adds to the uneasiness in commercial circles, and not only brings down the prices of imported commodities, but paralyzes the home market. Sales cannot be effected at any prices. While the importers continue to crowd their goods into the auction houses, the domestic manufacturers are stacking theirs in their mills—several of the cotton and woolen factories in the neighborhood of Philadelphia have ceased operations, temporarily, as they at the time supposed, in the expectation that the demand and sales in a month or two would so far reduce their stock as to enable them to resume work without any material break in prices. In this they have been disappointed. Sales are almost impossible at any price, and any offered reduction but the more effectually frightens purchasers from the market. We hear of one instance where a stock of goods, valued at four hundred thousand dollars, six weeks ago, are now stacked in the mills and would not realize three-fourths of the sum if put on the market. There are several similar cases. In truth, there are no large buyers of woollen goods at any price. In the mean time the leading dry goods importers are feeding the auction rooms, the rule everywhere being to buy as little and to sell as much as possible. The unsettled condition of financial affairs by reason of the inaction of Congress, no doubt adds to the distrust that now characterizes business walks, bringing down the price of gold and of all commodities, and filling the country with pressing and anxious sellers, opposed by laggard buyers, confident that the longer they wait the cheaper they will buy. It is pretty well understood at the present advanced stage of the season, that the spring trade of 1866 is a losing one, especially to those engaged in dry goods. The truth is, the prices of most manufactures will have to follow the course of gold. Indeed from various causes, gold has declined more than almost any of the products of labor that can be mentioned, and is now the cheapest article on the market. Those who first yield to the tendency of the times and realize on their productions, of whatever character, are likely to be best off, especially if the impression is maintained that the Secretary of the Treasury is determined to shape his course towards an early resumption, for whether to reach the desirable result requires any severe contraction of the currency or not, people will always discount their fears, and the fact is thus forced, whether necessary or not.—*Phila. Ledger.*

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, }
MONDAY, March 12, 1866. }

There are no new characteristics in the produce markets worthy of special notice. The transactions in Flour, Grain, Groceries and Provisions continue very much restricted, the demand being confined almost entirely to supplying the immediate wants of the local trade, while prices, generally, have undergone no essential change.

GRAIN—Wheat is quiet and dull but nominally unchanged. Oats dull, though the supply is light; we continue to quote at 40@41, on track, and 43@45 for small lots from store. Corn is dull, with a drooping tendency. Nothing doing in Rye or Barley.

FLOUR—Continues quiet and rather dull but unchanged; small sales from store at $8@8½ for Spring Wheat; $9¼@9½ for half Spring and half Winter; and $10¼@10½ for all Winter Wheat brands. Rye Flour is dull at $5¼@5½ per bbl, and Cornmeal is selling at 75 per bush.

PROVISIONS—Bacon is dull but unchanged at 14½ for Shoulders; 17 for Ribbed Sides, and 23@23½ for Sugar Cured Hams. Lard is quiet, at 18½ for prime kettle. Small sales of Mess Pork at $28@29.

SEEDS—Sale of 30 bushels Timothy Seed at $3½; also, small sales at $3¾@4. Clover Seed is as dull as ever, and the supply is largely in excess of the demand. Flax is in request at $2,75@2,80.

SORGHUM—Is coming in pretty freely, and the market is dull but unchanged. We quote at 65 to 70 to the trade, and 73@75, in a small way.

BUTTER—Is firm, with a very good demand, with sales at 35 to 38 for good to prime, and 40@42 for choice, in small packages.

EGGS—Very dull and irregular, sales being reported all the way from 23 to 27—mostly at 23@25.

CHEESE—Sales of Common Ohio at 20@21, and Goshen at 24@25.

DRIED FRUIT—Apples range from 14 to 16c—sale of 10 bbls prime York State at 16. Peaches may be quoted at 16 to 18 for quarters and 19@21 for halves.

POTATOES—Steady with a fair demand at $1,15@1,20 per bush, and $3½ per bbl.

LEAD—Sale of 150 pigs at 11c.

BEANS—In good supply and a little dull but unchanged, at $1¾@2 per bush.

HOMINY—Dull but unchanged at 3 cts to the trade, and 3¼@3½, in a small way.

HAY—Baled Hay is excessively dull, the supply being largely in excess of the demand—we quote at $12 to $14 per ton.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE }
MONDAY, March 12, 1866. }

CRUDE—The transactions in Crude were moderate to-day, although considerably below those of Saturday, and the market is weak and unsettled, with a strong downward tendency. On Saturday, about eight thousand barrels changed hands at 15, while to-day the highest figure we have reported is 14½, and it sold from that down to 13¾. We also heard of an offer to sell at 12½, for 47 gravity, but this cannot be taken as a criterion of the market for good merchantable oil. Sale of one bulk boat at 14½; 500 bbls at 14, and 1500 bbls (40 to 45 gravity) at 13¾. The advices from the east continue very unfavorable, and it is said that the trade is very much depressed at the wells.

REFINED—There is no improvement to note in the demand for bonded oil, and the market is weak and depressed, and prices are steadily declining. We give 42½@43, as the best figures named for May delivery in Philadelphia, and it is said that 44 and 45 can be obtained for June or July. We have a sale reported of 1000 bbls, on the spot, in Philadelphia, on Saturday, at 41, the lowest point it has reached for some time. Free Oil is dull and neglected—could not be quoted above 56@58, for small lots.

—Since the above report was put in type, we have a report of 500 bbls bonded oil having been sold for July delivery, buyers option in Philadelphia, at 45 cents.

NAPTHA AND RESIDUUM—There seems to no demand whatever for Residuum, and in the absence of sales, we quote nominally at $4@4½ per bbl. Naptha, also, is dull and nominally unchanged.

Boston Iron Market.

BOSTON, March 10.—The market for pig iron is very dull, and supplies for the first time since the close of the war, begin to accumulate. Scotch brands are now arriving quite freely, and are still relatively cheap. The cost of home production has been considerably reduced by the decline in coal. Still prices are without quotable change for small lots for present use, but contracts ahead could not be placed except at a reduction. Manufactured iron is very dull. Bar has declined $5 per ton; and nearly all descriptions are offering at a slight concession.

We note small sales of Scotch pig No. 1 at $55 @57 per ton for the various brands. American is nominal at $50@60 per ton, for the different numbers. Charcoal pig is selling at $55@80 per ton, cash. Bar iron is dull and lower, with sales from store at $110@115 for English common; $120@125 per ton for do refined. American refined bar is selling at $110@115 per ton from manufacturers' hands, $120@123 from store. Railroad iron is selling at $56@57, gold, per ton for English, and $85@87½, currency, for American. Boiler plates are a shade easier at 8¾c for flanges, 6½ for C No. 1, and 6¼c per lb for common and tank. Russia sheet is steady at 30@35c per lb. English do is a shade off at 7@10c. Nails are selling at 7¼c per lb for assorted sizes.—*Bulletin.*

Cleveland Market.

CLEVELAND, March 10.—Wheat more active but irregular. Sales 6 cars good No. 2 red winter at $1,50; 1 car do at $1,55; 2 cars ordinary do at $1,40; 4 cars No. 1 Milwaukee spring at $1 60; 3,000 bushel do do on private terms; 2 cars No. 1 amber Michigan at $2,29. Corn dull and lower. Sales 3 cars No. 1 shelled from store at 52c. Oats, light receipts and nominally higher; held at 37@38c for Ohio. Rye—No sales. Barley inactive and very dull for State; Canada moderately firm.

Boston Wool Market.

BOSTON, March 10.—Sales of domestic for the week foot up only some 350,000 lbs., at a range of 60@75c for fleece, and 55@70 for super and extra pulled. Included are lots of low Illinois, Iowa and Wisconsin fleece at 50@52c; medium and fine do, 52@57c; Ohio medium and fine, 64@73c; Vermont, New Hampshire and Maine, 65@70c; New York, 62@65c; choice Ohio, Pennsylvania and West Virginia, 73@76c; and 10,000 lbs Texas, 35c. Canada combing is nearly out of the market, and strictly graded lots would command 80@85c. In foreign the transactions have been unimportant, including small lots of Cape at 35@40c Australian at 42c, and Mestiza at 27@33c.

New York Iron Market.

NEW YORK, March 10.—The market for both Scotch and American pig is dull, the tendency at the moment being in favor of buyers. We notice sales of 114 tons Glengarnock Scotch, and 500 do Eglington and Gartsherrie, ex-ship, in lots at $46@46,50, 200 do No. 1 Allentown, under $48,* at Elizabethport; 500 do Crane, for April delivery, $47, cash; and 400 do No. 1, at Elizabethport, on private terms. We notice, besides, 100 tons Trenton Steel-headed rails, at $185, and 50 do Trenton Street, $100, cash. We notice sales of 100 tons Swedes bars to arrive, on private terms; 50 do best English refined do $74 gold. From store, there has been no further change in prices.—*Shipping List.*

New York Seed Market.

NEW YORK, March 10.—Clover continues to be pressed on a dull market, and prices still recede; the sales are 14@1500 bags at 9@11 cents for Ohio and State. Timothy is dull and offered at lower rates, $3,25@3,75 is now the range. Flax is quiet, with small sales at $2,60@2,80. In Canary, we notice the sale of 50 bags Smyrna, on terms not made public. Linseed continues very dull, and prices rather tend downward, we understand a sale was made in Boston at $2,35 gold.

MARKETS BY TELEGRAPH.

Finance and Trade in New York.

STOCKS.

NEW YORK, March 12.—At the second Board the stock market was strong and higher, Michigan Southern taking the lead and selling up to 77. At the last Board the market broke down, in sympathy with the fall in Gold. Reading and Rock Island were firm, but the balance of the list was heavy and lower, the decline in leading shares being ¼@¾ per cent. The clique in Michigan Southern are trying to unload but find it difficult work. The following were the closing prices: New York Central, 91⅞; Erie, 82½; Hudson River, 103; Reading, 98¼; Michigan Southern, 76; Cleveland and Pittsburgh, 83½; Rock Island, 108; Northwestern, 26; do preferred, 53; Fort Wayne, 90; Ohio and Mississippi Certificates, 25; Canton, 41; Cumberland Coal, 41½; Quicksilver, 40½; U. S. 6's '81, 104⅛; U. S. 5-20's, 103½; U. S. 10-40's, 90½; Missouri Sixes, 72.

Money was perceptibly easier to-day, and there was a large amount of capital offering to brokers. The rate for call loans has fallen to 6 per cent, and there is very little business doing at 7 per cent. Gold became heavy as the day advanced, and fell off to 130¾, but then rallied to 130@130¼. A firm largely short in gold failed on Saturday. This morning about a half million was bought on account of contracts, which was one cause of the firmness of the market.

The *Commercial* says the stock market shows more speculative activity, the clique operating in Michigan Southern. They are buying up a large amount of stock, and the price rose to 75; an advance of 1½. Erie was again active at 82½@83½. Governments are still firm, but only merely active. Border State bonds are still weak; Missouri Sixes declined ¼ per cent, closing at 71. The excitement in gold stocks still continues. The money market exhibits increasing ease. The surplus resting in the hands of private bankers, appear to have considerably augmented during the last few days, and generally freely offered at 6@7 per cent on call. Some of the banks ask 7 per cent on demand loans, but others are lending freely at 6 per cent. There is a perceptible increase of the amount of paper offering for sale, and the rate of discount, consequently, do not sympathize with greater ease. On call loans, prime papers still at 7½@8 per cent, with exceptions at 7 per cent; good names at 8@9 per cent.

The bank statements show the large increase of $5,581,657 in Legal Tenders, and a decrease of $227,158 in Loans. The deposits also show a falling off of $928,497. Gold is somewhat excited and under speculative operations. On Saturday firms interested in stock operations bought up a large amount of gold, reported at $200,000, for producing sympathetic aid in the phenomenents. To-day the same parties are sellers, but can not find buyers at advanced figures. The tendency of the market is strongly downward, and in some quarters 125 is regarded at not an improbable figure. During the current month Foreign Exchange has been quiet. Leading drawers quote 60 days Sterling at 108@108½, and there are no transactions of moment. Francs, long date, are noted at 521¼@516¼.

WEEKLY BANK STATEMENT.

Loans	$253,068,274	Decrease	$2,271,158
Specie	16,563,237	Decrease	617,866

New York Market.

NEW YORK, March 12.—Cotton is better, at 41@42c for Middling. Flour dull; Common Grades 10c lower, at $7,60@7,75 for Extra State; $8,15@8,80 for Common to Good R. H. O.; $8,85@11,00 for Trade Brands, closing dull. Whisky dull; Western, $2,28, and small sales refilled, at $2,27. Wheat dull; Common Grades 1@2c lower; White Western, $2,60. Rye quiet. Barley and Barley Malt dull and nominal. Corn heavy, and rather easier, at 68@71c for Unsound; 75@78c for Sound Mixed Western, and 76c in store and delivered, and 78c for Southern Yellow. Oats dull, and declining, at 35@41c for Unsound Western; 53@55c for Sound, and 55@54c for State. Coffee dull and heavy. Sugar easier; Cuba Muscovado, 10¼@10¾c. Molasses dull and heavy. Petroleum dull, at 25c for Crude, and 43@45c for Refined in Bond. Pork heavy and lower, at $26,12½@26,31½ for New Mess, and closing at $26,25 cash; $25,00@25,25 for Old do; $20,00 for Prime, and also 4,250 bbls New Mess for April and May, sellers' option, at $26,37½@26,75. Beef steady and prices unchanged; Mess about $33,50. Beef Hams heavy, at $37,50@39,00. Bacon firmer and more active, at 15c for Cumberland Cut, 15½c for Short Ribbed, and 12½c for Long Ribbed. Cut Meats unchanged, at 11@12½c for Shoulders, and 16@18½c for Hams. Dressed Hogs nominal, at 12¼@12½c for Western, and 12¾@13¼c for City. Lard firmer, at 16¾@18¼c. Butter quiet, at 28@40c for Ohio, and 35@50c for State. Cheese dull, at 16@22c.

New York Dry Goods Market.

NEW YORK, March 12—The dry goods market is weak to-day. Prints, bleached and fine brown shirtings and sheetings fell off a little to-day. Muslin delaines also fell two and one-half cents a yard. Trade rather inactive even at the concessions made. Brown Sheetings—Appleton, A, 25c; Appleton, E, 19c; Great Falls, M, 23c. Bleached Shirtings—Bates, 40c; Bates, B, 32½c; Blackstone, 40c. Prints—Cochico, 21c; Americans, 19c; Freeman, 16c; Arnold, 16c. Delaines—Hamilton, 22½c; Pacific, 22½c. Cambrics—Manville, 18c; Victory, 18c. Silecias—Massapequa, 37½c; Lonsdales, 27½c. Ticks—Hamilton, 52½c; Hamilton, D, 47½c. Denims—Arkwright, brown, 36c; Arkwright, blue, 37c. Hoop Skirts—Bradley's Duplex Elliptic, 20 to 50 hoops, 87½c to $1,05; Empress' Trail, $1,25.

New York Stock and Money Market.

NEW YORK, March 12.—Money quiet and easy at 6@7 per cent. Sterling dull and heavy at 108⅜@108¾. Gold irregular and unsettled at 131½, advancing to 132⅜, declining to 130⅝, and closing at 130⅞. Government Stocks ¼@½ better. Freights to Liverpool dull. Stocks strong; U. S. 5-20 Coupons of '62, 103¼; U. S. 5's 10-40 Coupons, 90¾; Tennessee 6's, 88⅞@90, Missouri 6's, 71½; Ohio and Mississippi Certificates, 25⅛; Western Union Telegraph, 66⅞; Erie, 83⅛; Reading, 98½; Michigan Southern, 76⅛; Illinois Central, 70½; Illinois Central, preferred, 116⅞; Pittsburgh, 76⅞; Northwestern, 26½; do preferred, 53⅞; Toledo, 107⅛; Chicago and Rock Island, 108¼; Fort Wayne, 90⅞; Terre Haute, 29.

St. Louis Market.

ST. LOUIS, March 12.—Flour heavy at $6,90@7.25 for single extra, and $10,25@12 for double extra. Wheat dull at $1,60@1,85 for common to good fall, and $1,95@2,20 for prime. Corn firm at 56c for mixed yellow, and 58@61c for white. Oats firmer at 41½@46c. Pork firmer at $24 for prime mess. Bacon quiet at 13½c for shoulders, and 16@18½c for clear; sides quiet. Lard firm at 18¾@19½c. Beef, 16c for plain mess. Whisky, $2,25.

Cincinnati Market.

CINCINNATI, March 12.—Flour and Wheat steady. Provisions dull and prices irregular; Mess Pork, $27@50. Lard, 18¼c. Whisky dull, at 25c. Gold, 131¾.

IMPORTS BY RAILROAD.

PITTSBURGH, FORT WAYNE & CHICAGO R. BOATS LEAVING TO-DAY.

Leni Leoti	Hamilton	Parkersburg
Emma Gr'h'm	Stull	Zanesville

RIVER, WEATHER, ETC.

The river was about stationary at this point yesterday, with less than five feet in the channel by the Monongahela pier marks last evening. Private telegrams from Oil City today report thirty four inches in the Allegheny at that point and rising. The weather continues cloudy and sultry, with occasional showers of rain, and there is now but little floating ice in the Allegheny at this point.

Business continues very dull at the wharf, the offerings of freight for all points being very limited, and the receipts, also, are very light.

The intelligence of the Allegheny rising at Oil City occasioned considerable stir at the Allegheny wharf as soon as it become known. The Peerless and Petrolia both went out last evening—the former boat had a very fair trip, including quite a number of passengers. The Urilda arrived about four o'clock yesterday afternoon.

The Leni Leoti, from Parkersburg, and the Emma Graham, from Zanesville, arrived during Sunday night. The former boat leaves on her trip at 11 a. m., and the latter at 4 p. m.

The Bayard cleared for Parkersburg on time yesterday, with a very fair trip. All the boats in this line are now running on time, and we take great pleasure in commending them to the patrons of the trade.

The Brownsville packets are doing a very fair business, and the boats in this line, in point of speed, comfort and safety, are surpassed by none on the western waters.

The Leonidas, Capt. M. A. Cox, is filling up steadily for St. Louis, and will soon be ready to take her departure.

The Savanna, Capt. Jolly, having but recently been overhauled and repaired, is now at the wharf loading for all points on the Upper Mississippi. Capt. J. expects to sail about the latter part of the week.

The Camelia, Capt. J. L. Lytle, for Nashville, and the America, Capt. T. H. Golding, for New Orleans, are filling up steadily, and will be ready to take their departure soon.

Capt. Byers has commenced suit against the owners of the C.E. Hillman for $30,000 damages caused by the Hillman sinking the Byers a few days since.

The Glasgow arrived at Cincinnati on Saturday, from Nashville. Among other items of freight, she had seventy-five bales of cotton.

The Nashville *Press*, of Friday, says:

We had the pleasure of meeting at the river yesterday, Capt. Hiram Burch, one of the pilots of the Rowena, who is now seventy-two years of age, and probably the oldest pilot on the river. He started out in 1813, and came to Nashville on a keelboat in 1814. The old gentleman is hale and hearty, never smoked a cigar, or took a chew of tobacco.

MORE COAL.—The tow-boat Shark came in from Pittsburgh yesterday with seven barges in tow, containing about 120,000 bushels of coal for W. H. Brown. It is intended for the Gas Company at St. Louis.—*Louisville Courier.*

AN ORDINANCE to authorize the Grading and Paving of sundry streets and Avenues.

SEC. 1. *Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby enacted by the authority of the same,* That the Committee on streets, &c., and they are hereby authorized and directed to invite and receive proposals for the Grading and Paving of Ridge street, Ohio Avenue, from the Railroad to the Manchester line; Hamilton street from Allegheny Avenue to Manchester line; Franklin street from Allegheny Avenue to Sedgwick street; Bidwell street from Ohio Avenue to Juniata street; Allegheny Avenue from Western Avenue to Franklin street, and to contract therefor with the lowest and best bidder or bidders, at their discretion.

SEC. 2. That for the purpose of defraying the cost and expenses of the said improvements, there be, and is hereby levied, a special tax, to be equally assessed upon the several lots bounding and abutting upon the said streets and avenues respectively, in proportion to the feet front in them respectively comprised, and bounding and abutting as aforesaid.

SEC. 3. That as soon as the cost and expenses of said improvements shall be fully ascertained, it shall be the duty of the Street Commissioner to assess and apportion the same among the several lots bounding and abutting upon said streets and avenues respectively, according to the rule above indicated, and thereupon proceed to make demand and collect the same, according to the provisions of the Act of the General Assembly of the Commonwealth of Pennsylvania, entitled "An Act defining the manner of collecting the expenses of grading and paving of the streets and alleys of the City of Allegheny, and for other purposes," passed the 30th day of March, 1852.

SEC. 4. That so much of any ordinance as may conflict with, or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law this the 8th day of February, Anno Domini, one thousand eight hundred and sixty-six.

MEDICAL.

GREENBACKS

ARE GOOD.

BUT

ROBACK'S BITTERS

ARE BETTER.

Roback's Stomach Bitters

After years of experience and trial, have proven to be the best remedy extant for all complaints where a tonic and stimulant are required. They never fail to strengthen the weak, impart vigor to the strong and in all respects restore shattered and broken-down constitutions. No remedy has been received with as much favor as ROBACK'S STOMACH BITTERS.

GREENBACKS

ARE GOOD,

BUT

It is admitted by our most learned physicians that DR. ROBACK'S BITTERS combine the properties of a gentle laxative, an efficient anti-bilious agent, and the best stomachic known to the world.

ROBACK'S

BITTERS should be used by convalescents to strengthen the prostration which always follow acute disease.

In the bilious districts of the West and South there has, for a long time, been much needed, an article of stomach Bitters, which, if taken in proper quantities and at the proper time, are a sure preventive of

Bilious Fever, Fever and Ague, Liver Complaint, Dyspepsia, Indigestion, Jaundice, Kidney Complaints, and all Diseases of a similar nature, and

a preventive for bilious derangement, regulating the system, and giving tone to the digestive organs, than any other known remedy.

Now that the war is over, there will be thousands seeking homes in the South. No person who values his life should go there without having constantly at hand the BITTERS, as a safeguard against epidemics and maladies engendered by miasma and polluted water.

Travelers to and all residents of, the rank bottoms of the west and south, and the valley of the Mississippi and its tributaries, should provide themselves with the
